Description

Hoco UPA34 USB-C to USB-C + 3.5mm Digital Audio Converter The Hoco UPA34 USB-C to USB-C + 3.5mm Digital Audio Converter is designed for users who need a compact Type-C audio adapter for connecting 3.5mm wired earphones, headphones, speakers, or audio devices to USB-C smartphones, tablets, and laptops. With a USB-C input, 3.5mm audio output, additional USB-C port, microphone support, lightweight 11g body, and metal grey aluminum alloy design, it is a practical accessory for listening, calls, gaming chat, online meetings, and daily Type-C audio use. Key Features USB-C to 3.5mm Audio ConverterEnables audio output from Type-C devices to 3.5mm audio devices. USB-C + 3.5mm Output DesignProvides a 3.5mm audio port and a USB-C / Type-C port in one compact adapter. Microphone SupportedSupports microphone use with compatible 3.5mm headsets for calls, meetings, gaming, and voice chat. Compact Metal Grey BuildSmall and lightweight design makes it easy to carry every day. Aluminum Alloy + TPE + ABS MaterialDurable material combination supports daily plugging, unplugging, and travel use. Lightweight 11g BodyEasy to keep in a pocket, pouch, laptop bag, or phone accessory kit. Practical for Wired Audio UsersUseful for users who still prefer 3.5mm earphones or headphones with newer USB-C devices. Daily Audio ConvenienceSuitable for music, calls, video watching, gaming chat, and online communication.
