Description

Hoco W113 USB Gaming Headset The Hoco W113 USB Gaming Headset is designed for gamers who want powerful sound, comfortable wear, and clear voice communication through a simple USB connection. With 50mm drivers, surround sound, soft earmuff lining, adjustable omnidirectional microphone, 2m cable, volume control, microphone switch, and included one-to-two audio adapter cable, it is suitable for PC gaming, laptop use, online chat, streaming, and daily multimedia entertainment. Key Features USB Gaming HeadsetUses a USB plug for easy connection to compatible computers and laptops. Surround Sound ExperienceDesigned to deliver a vivid soundstage for gaming, movies, and entertainment. 50mm Audio DriversLarge drivers produce clear and powerful audio for game sound effects, music, and voice. Adjustable Omnidirectional MicrophoneHigh-sensitivity microphone helps capture voice clearly during gaming, calls, and online chat. Comfortable Earmuff LiningSoft ear cushions provide a more refined and comfortable feel during extended use. Built-In Volume AdjustmentAllows easier control of audio level during gaming or media playback. Microphone SwitchLets users quickly turn the microphone on or off when needed. 2m Cable LengthGives more flexibility for desktop setups, gaming stations, and laptop use. One-to-Two Audio Adapter IncludedSupports use with desktop computers or laptops that have dual audio ports, depending on the setup. Durable Gaming DesignBuilt for daily gaming, online communication, and entertainment use. Main Feature Sections Immersive Gaming AudioThe Hoco W113 uses 50mm drivers to deliver a stronger soundstage and more powerful audio. This helps make game effects, footsteps, action scenes, and media playback feel more engaging. Clear Team CommunicationThe adjustable omnidirectional microphone is designed for voice pickup during multiplayer games, online meetings, streaming, and voice chat. Its adjustable design helps position the microphone closer to the mouth for clearer communication. Comfort for Longer SessionsSoft earmuff lining helps reduce discomfort during extended gaming or listening sessions, making the headset suitable for longer daily use. Practical Controls for GamingWith built-in volume adjustment and a microphone switch, users can quickly manage audio and voice chat without needing to change settings on the computer every time.
