Description

Hoco X123 Victory Type-C to Type-C × 2 2-in-1 Charging Cable The Hoco X123 Victory Type-C to Type-C × 2 2-in-1 Charging Cable is designed for users who want one practical cable to charge two Type-C devices from a single Type-C connection. With a 1m total length, nylon braided exterior, aluminum alloy connectors, lightweight 31g design, and support for separate or simultaneous charging, it is a useful everyday cable for smartphones, tablets, accessories, power banks, car chargers, and desk charging setups. Key Features 2-in-1 Type-C Charging CableDesigned with a Type-C to dual Type-C output layout for charging two Type-C devices. 1m Total LengthIncludes a 0.8m main line and 0.2m branch line for practical daily use. Dual Type-C OutputUseful for users who carry multiple Type-C devices such as phones, earbuds, tablets, and accessories. Nylon Braided Outer MaterialProvides better durability and a stronger feel compared to basic plastic cables. Aluminum Alloy ConnectorsDurable connector housing helps resist daily wear from plugging and unplugging. Separate Charging SupportSupports 5V/2A when charging one device separately. Simultaneous Charging SupportSupports up to 5V/3A maximum when charging two devices at the same time. Lightweight BuildWeighs only 31g, making it easy to carry in a bag, car, office, or travel pouch. Black FinishClean black color suits daily tech setups and accessories.
