Description

Philips Avance Collection Juicer HR1925/20 The Philips Avance Collection Juicer HR1925/20 is designed for users who want fresh homemade juice with adjustable texture, powerful juicing performance, and easier cleaning. With FiberBoost technology, a strong 1200W motor, 80mm XXL feeding tube, QuickClean design, polished easy-clean sieve, drip stop, 1L juice jug, 2.1L pulp container, citrus press, and two speed settings, it is built for everyday fruit and vegetable juicing with more control over fiber and less preparation time. Key Features FiberBoost TechnologyLets users choose between clearer juice or a creamier juice texture with up to 50% more fiber. Powerful 1200W MotorHandles tougher fruits and vegetables more easily for fast juicing performance. 80mm XXL Feeding TubeReduces preparation time by allowing many fruits and vegetables to be inserted with less cutting. QuickClean DesignDesigned to make cleaning faster and easier after juicing. Easy-to-Clean Polished SieveThe polished sieve helps remove leftovers more easily with a kitchen sponge. Pre-Clean FunctionPour water into the pusher to rinse the juicer between different juices or after use. Drip Stop SpoutHelps keep the kitchen counter cleaner by stopping juice flow between sessions. Pulp Collected in One ContainerThe round design helps direct leftovers into the pulp container for easier disposal. Lower Noise and VibrationThe motor is designed for a quieter and smoother juicing experience. 2 Speed SettingsAllows better control depending on the ingredients being juiced. Citrus Press IncludedAdds extra versatility for citrus juice preparation. Dishwasher-Safe PartsSupports easier cleaning after use. Main Feature Sections FiberBoost for Juice Texture ControlThe Philips HR1925/20 gives users more control over how their juice feels and tastes. With FiberBoost technology, you can switch between a refreshing clear juice and a creamier juice with up to 50% more fiber. Powerful Juicing PerformanceThe 1200W motor is built to juice tougher fruits and vegetables efficiently, making it suitable for daily juice routines with a wide range of ingredients. Less Cutting, Faster JuicingThe 80mm XXL feeding tube allows many fruits and vegetables to fit with less chopping, helping users save time before juicing. Cleaner Kitchen ExperienceThe drip stop helps prevent juice from dripping onto the counter, while the pulp container collects leftovers in one place for easier cleanup. QuickClean MaintenanceThe polished sieve, pre-clean function, dishwasher-safe parts, and simple pulp collection design make the juicer easier to maintain after use.
