Description

Mcdodo USB-C + USB-A Car Charger 45W Black The Mcdodo USB-C + USB-A Car Charger 45W is designed for users who want fast and flexible charging inside the car. With a USB-C port, USB-A port, 45W output, compact travel-friendly design, and built-in safety protection against overvoltage, short circuit, and overheating, it is a practical car charger for phones, tablets, and everyday USB-powered devices. Key Features 45W Charging OutputProvides up to 45W charging power for compatible devices. USB-C and USB-A Dual-Port DesignIncludes both USB-C and USB-A ports, allowing users to charge newer and older devices from one charger. Charges Mobiles and TabletsSuitable for smartphones, tablets, and compatible USB-powered accessories. Compact Car-Friendly DesignSmall and travel-friendly build makes it easy to keep inside the car without taking extra space. Black Minimal LookClean black finish fits well with most car interiors. Overvoltage ProtectionHelps protect connected devices from unsafe voltage conditions. Short Circuit ProtectionBuilt-in safety protection helps reduce risk during charging. Overheating ProtectionHelps keep the charger and connected devices safer during daily use. Useful for Mixed DevicesPractical for users who still use USB-A cables while also needing USB-C charging for newer devices. Main Feature Sections Dual-Port Charging FlexibilityThe Mcdodo CC-2680 includes both USB-C and USB-A ports, making it useful for charging modern USB-C phones and older USB-A devices at the same time. Fast Car Charging PowerWith a 45W output, this car charger is built for faster charging than basic low-power car adapters, depending on the connected device and cable used. Compact Daily Travel DesignIts compact size makes it easy to keep installed in the car or carry between vehicles. It is suitable for daily commuting, road trips, delivery work, and travel use. Built-In Safety ProtectionThe charger includes protection against overvoltage, short circuit, and overheating to support safer charging while driving.
