This makes it useful for travel, daily shooting, and quick content creation. Comfortable Long-Use GripThe included Selfie Stick Sleeve improves grip comfort, especially when holding the stick for longer periods. It is designed not to block the 1/4-inch screw on the bottom of the selfie stick. Lightweight Everyday DesignAt only 119g, this selfie stick is best for daily life, casual vlogging, walking shots, selfies, and simple travel content. It is not designed for high-speed adventures or high-intensity action use.
