SKU	cm-DVT1170
Brand	Philips
Category	Audio & Video
Minimum order quantity	1
Unit	—
Unit price	$89.00
Available quantity	100

Description

Philips DVT1170 VoiceTracer Audio Recorder The Philips DVT1170 VoiceTracer is designed for users who need simple, reliable audio recording for meetings, interviews, conversations, notes, and everyday voice capture. With a high-quality 360° microphone, WAV recording, voice-activated recording, one-touch operation, 8GB internal memory, microSD card expansion, PC connectivity, and up to 70 hours of battery runtime using AAA batteries, it is a practical recorder for students, professionals, journalists, meetings, and personal memos. Key Features High-Quality 360° MicrophoneCaptures clear sound from different directions, making it useful for conversations, meetings, interviews, and voice notes. Clear WAV RecordingRecords audio in uncompressed PCM WAV format for crisp and reliable voice capture. Voice-Activated RecordingAutomatically starts recording when sound is detected and stops during silence, helping save memory and battery. One-Touch RecordingPress and hold the record button to power on the device and start recording quickly. Audio Scene PresetsPredefined recording scenes help optimize settings for memos, meetings, and music. Time-Stamped FilesRecordings include date and time stamps to make file organization and navigation easier. 8GB Internal MemoryProvides extended recording storage without needing a memory card immediately. microSD Card SlotAllows storage expansion using a microSD card for longer recording needs. Extra-Long Battery RuntimeRecords up to 70 hours using two AAA batteries, making it suitable for long sessions and travel use. PC ConnectivityMakes it easier to transfer and share recordings with a computer. Simple Daily UseDesigned for users who want dependable recording without complicated controls.
