Description

soundcore Boom Go 3i The soundcore Boom Go 3i is a compact Bluetooth speaker for travel, cycling, camping and everyday listening where portability and outdoor durability matter. Despite its palm-size design, it combines 15W sound with IP68 protection, a flexible mounting strap, customizable lighting and a built-in emergency power bank. Key Features 15W output with BassUp 2.0 and up to 92dB peak loudness Up to 24 hours of playback in BassUp mode at 50% volume with lights off IP68 dust and water resistance Tested for drops from up to 1m Two-in-one silicone strap for carrying or mounting Music-synced and ambient lighting modes 4,800mAh battery with emergency phone charging TWS pairing and Auracast broadcasting Main Feature Sections Compact sound: A 15W acoustic system and BassUp 2.0 deliver stronger output than the speaker's compact dimensions suggest. Built for outdoor use: IP68 protection and tested 1m drop resistance make it better suited to active use around dust, rain and water. Flexible carrying: The silicone strap switches between a carry loop and a mounting point for a bag or bicycle. Power when needed: The internal battery can provide emergency charging to a connected phone through the USB-C port. Technical Specifications Model: D5103010 Output power: 15W Peak loudness: Up to 92dB Audio enhancement: BassUp 2.0 Product weight: 380g Drop resistance: Tested up to 1m Battery and Charging Battery capacity: 4,800mAh Playback: Up to 24 hours at 50% volume in BassUp mode with lights off Eco playback: Up to 40 hours at 50% volume with lights off High-output playback: Approximately 6 hours at 100% volume with lights and BassUp enabled Reverse charging: Emergency phone charging supported Connectivity Bluetooth: 6.0 Stereo pairing: TWS with two compatible Boom Go 3i speakers Multi-speaker audio: Auracast support Dual-device connection: Supported outside TWS and Auracast modes Water Resistance Rating: IP68
