Product	Laifen Swift Special Hair Dryer (Pearl White)
SKU	cm-LF03-PW
Brand	Laifen
Category	Hair Care
Minimum order quantity	1
Unit	—
Unit price	\$199.00
Available quantity	100

Description

Laifen Swift Special High-Speed Hair Dryer The Laifen Swift Special Hair Dryer is designed for users who want fast drying, smoother styling, and more complete hair-control options in one lightweight dryer package. With 1400W power, high-speed airflow, 3 magnetic styling nozzles, hot/warm/cold temperature control, auto-cycling temperature mode, quiet 59dB operation, and a lightweight 407g body, it is built for daily drying, curly hair styling, focused airflow, and smoother everyday results. Key Features High-Speed Drying PerformanceDesigned to dry hair quickly with strong airflow while keeping the dryer lightweight and easy to handle. 3 Styling Nozzles IncludedComes with a concentrator nozzle, smooth nozzle, and diffuser nozzle to support different hair types and styling needs. Concentrator Nozzle for Fast DryingFocuses airflow for quicker drying and more precise styling. Magnetic Smooth Nozzle for Everyday StylingHelps create smoother everyday drying results with easier attachment and removal. Magnetic Diffuser Nozzle for Curly HairDesigned to define curls and waves while spreading airflow more gently. 0% Heat Damage ClaimPositioned around safer drying and controlled temperature performance to reduce heat-styling stress. Hot / Warm / Cold Temperature ControlAllows users to choose the right temperature depending on hair type, styling need, or finishing preference. Auto-Cycling Temperature ModeLong press to activate automatic temperature cycling for more balanced drying comfort. Two Speed GradesSpeed grades 1 and 2 give control between gentler drying and stronger airflow. Light Ring IndicatorsFour light rings help show working mode and make the dryer easier to understand during use. Quiet Drying PerformanceNoise reduction technologies help keep operation quieter, with 59dB listed at full speed. Brushless Motor DesignBrushless motor helps reduce extra noise and supports smoother long-term performance. Aircraft-Grade Aluminum Motor Fan BladesT6061 aluminum alloy motor fan blades are made for precision, durability, and stable airflow. Long 2.5m CordThe 8.2ft cable gives more flexibility during home or salon-style use. Main Feature Sections Complete Styling PackageThe Swift Special version is stronger as a bundle because it includes three nozzles. The concentrator is useful for direct drying, the smooth nozzle is better for daily shine and control, and the diffuser supports curly or wavy hair. Fast Drying with Controlled StylingThe 1400W motor and high-speed airflow are designed for quick drying, while the temperature controls help users switch between hot, warm, and cold air depending on the result they want. Quiet and Comfortable UseLaifen uses air duct optimization, reduced shake and friction, dynamic balance, brushless motor technology, and optimized air inlet design to reduce noise during drying. Lightweight Daily HandlingAt 407g without the cord, the dryer is easier to hold for longer styling sessions compared to heavier traditional dryers. Technical Specifications Product Type: High-Speed Hair Dryer Brand: Laifen Model: Swift Special Rated Power: 1400W Rated Voltage: 120V Dual Voltage: No Unit Dimensions: 277 × 70 × 89mm Net Weight: 407g / 0.89lb / 14.35oz, without cord Wire Length: 2.5m / 8.2ft Buttons: On / Off, speed grades 1 and 2 Temperature Settings: Hot, warm, cold Auto-Cycling Mode: Long press for auto-cycling temperature Styling Nozzles: 3 included Noise Level: 59dB at full speed Motor Blade Material: T6061 aircraft-grade aluminum alloy Motor Blade Precision: 0.001mm Motor Fan Blade Lifespan: 1000 hours listed Airflow Speed Mentioned: 22.291m/s Use Case: Fast drying, everyday styling, smoother finish, curly hair drying, focused airflow, home use, and travel within compatible voltage regions Power & Voltage Rated Power: 1400W Rated Voltage: 120V Important: This model is not dual voltage. It should only be used with compatible voltage systems. Best Use Cases Fast daily hair drying Curly hair with diffuser nozzle Smooth everyday styling Focused drying with concentrator nozzle Reducing drying time Home styling Users who want a lighter hair dryer Users who want multiple nozzle options in the box Long styling sessions where lower weight matters Compatibility Suitable for users who need a 120V hair dryer Not suitable for countries or regions using incompatible voltage unless a proper power solution is used Works best with the correct nozzle depending on hair type and styling goal What's in the Box Laifen Swift Hair Dryer × 1 Concentrator Nozzle for Fast Drying × 1 Magnetic Smooth Nozzle for Everyday Styling × 1 Magnetic Diffuser Nozzle for Curly Hair × 1 User Manual × 1 QC Card × 1
