Description

Philips DLM3401TP/00 Wireless Microphones The Philips DLM3401TP/00 Wireless Microphones are designed for users who want an easy dual-microphone setup for singing, karaoke, parties, entertainment, and vocal performances. With two 2.4GHz dynamic microphones, a rechargeable receiver, voice sensitivity control, improved equalizer settings, up to 30m wireless transmission, and included 3.5mm to 6.3mm adapter, they are built for party speakers, audio systems, and home entertainment setups. Key Features Dual Wireless Microphone SystemIncludes two wireless microphones, making it suitable for duets, karaoke, events, and shared entertainment. Dynamic MicrophonesDesigned with a wide frequency response, making them suitable for vocal and instrumental performance. 2.4GHz Wireless TransmissionProvides wireless use with transmission distance up to 30 meters under stated conditions. Rechargeable ReceiverThe receiver can be recharged using any USB charger, giving a practical connection solution for speakers and audio systems. Voice Sensitivity ControlAllows users to adjust microphone voice volume to better match the background music. Four-Level Voice Gain ControlHelps fine-tune vocal output depending on the singer, room, and speaker setup. Improved Equalizer SettingsHelps amplify bass frequencies while adding clarity and penetration to higher frequencies for better vocal performance. Compatible with Party Speakers & Audio SystemsDesigned to work with speakers and party audio systems that support compatible audio input. 3.5mm to 6.3mm Adapter IncludedSupports connection with different audio input jack sizes for wider compatibility. Long Microphone RuntimeEach microphone works with 2 AA batteries and supports more than 12 hours of continuous singing under stated conditions.
