Product specification sheet

Product	DJI Osmo Mobile 8P Gimbal
SKU	cm-OSMOM8P-SC
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$165.00
Available quantity	100

Description

DJI Osmo Mobile 8P Gimbal The DJI Osmo Mobile 8P Gimbal is designed for creators who want smoother smartphone videos, smarter subject tracking, easier selfies, and more flexible shooting angles in one foldable mobile gimbal. With robust 3-axis stabilization, upgraded ActiveTrack 8.0, Multifunctional Module 2 support, Osmo FrameTap remote framing, direct phone connection, built-in extension rod, upgraded tripod, 360° pan rotation, up to 10 hours of battery life, and phone charging support, it is ideal for vlogging, travel, family videos, reels, live streaming, and everyday content creation. Key Features Robust 3-Axis Gimbal StabilizationUses 8th-generation stabilization with boosted motor power to keep smartphone footage smooth while walking, moving, changing angles, or filming low shots. Expanded & Enhanced Subject TrackingThe new Multifunctional Module 2 tracks people, cats, dogs, and objects, while upgraded ActiveTrack 8.0 improves subject tracking stability in busy environments. Direct Phone Connection for Native TrackingPair by tapping a compatible phone on the NFC area of the gimbal, then attach it magnetically to start filming and tracking faster. Remote Control Selfies with Osmo FrameTapOsmo FrameTap mirrors the view from the phone or Multifunctional Module 2, helping users frame rear-camera selfies or shoot from a distance with better composition control. 10-Hour Battery LifeOffers up to 10 hours of operating time for longer shooting sessions, outdoor filming, and live streaming. Phone Charging SupportUSB-C port allows the gimbal to charge your phone during extended filming sessions. Low-Angle ShootingTilt the pan axis forward to capture low-level shots, useful for filming kids, pets, movement, and creative cinematic angles. 360° Pan RotationUnlimited 360° horizontal rotation makes it easier to capture smooth panoramic photos and videos. Built-In Extension RodExpands the field of view for selfies, vlogs, group shots, and travel videos. Built-In TripodUpgraded tripod with a wider stance improves stability when the gimbal is placed down for hands-free filming. Foldable DesignFolds easily for travel, storage, and quick carry between shooting locations. Easy Tutorials & One-Tap EditingDJI Mimo app support includes ShotGuides for scene-based shooting suggestions and One-Tap Editing for faster video creation.
