Description

Hoco K25 Sherkhan Tabletop Holder for Live Broadcast The Hoco K25 Sherkhan Tabletop Holder is designed for users who need a flexible phone holder for live streaming, photography, selfies, and mobile content creation. With a magnetic pad and clamp combination, extendable tripod design, Bluetooth remote control, and 1.5m maximum height, it is practical for indoor and outdoor shooting. Its main value is versatile phone mounting in one compact accessory. It can be used as a selfie stick or tripod, while the detachable Bluetooth remote makes hands-free photos and videos easier. Key Features Tabletop holder for live broadcast Selfie stick and tripod design Circular magnetic pad + clamp combination Compatible with 4.5–7 inch phones Clamp width: 60–105mm Magnetic pad pull force: 1.4kg N52 magnet Aluminum alloy + ABS material Detachable Bluetooth 5.2 remote 10m remote transmission distance Maximum height: 1.5m Folded size: 56 × 62 × 248mm Type-C charging for remote Textured surface finish Lightweight 268g design Main Feature Sections Magnetic and Clamp Support The Hoco K25 combines a circular magnetic pad with a phone clamp, giving users more flexible mounting options for compatible smartphones. Selfie Stick and Tripod Mode Use it as a handheld selfie stick or press the bottom button to extend the legs and convert it into tripod mode. 1.5m Adjustable Height With a maximum height of 1.5m, the holder supports wider framing for livestreams, full-body shots, group photos, product videos, and creative angles. Bluetooth 5.2 Remote Control The detachable Bluetooth remote supports wireless shooting from up to 10m away, making hands-free photos and videos easier. Portable Folded Design The compact folded size makes it easy to carry in a bag for travel, outdoor shoots, live broadcasts, and daily content creation.
