Description

Hoco L20A Wireless Lavalier Microphone for iPhone and Android The Hoco L20A Wireless Lavalier Microphone is designed for creators, vloggers, online sellers, teachers, and mobile users who need simple wireless audio recording from a phone or tablet. With dual microphones, Type-C and Lightning receiver support, and a lightweight clip-on design, it is practical for interviews, reels, live streaming, TikTok videos, product videos, and online meetings. Its main value is easy mobile recording. The compact microphones connect wirelessly to the receiver, helping users record clearer voice audio without holding the phone close. Key Features Wireless lavalier microphone set Suitable for iPhone and Android devices Type-C and Lightning receiver support Full directional polar microphone Dual microphone design Lightweight clip-on microphones 60mAh battery per microphone 3–4 hours usage time 2-hour charging time Compact ABS material body Suitable for videos, interviews, live streaming, and calls Easy plug-and-use mobile recording Main Feature Sections Wireless Mobile Recording The Hoco L20A allows users to record audio wirelessly from a compatible phone or tablet, making it useful for content creation, interviews, and social media videos. Type-C and Lightning Support The receiver supports Type-C and Lightning audio plug options, making it suitable for many Android phones, iPhones, and Lightning iPads. Dual Microphone Setup With two microphones included, the set is practical for two-person recording, interviews, livestreams, and creator content. Lightweight Lavalier Design Each microphone weighs only 7.5g, making it easy to clip on clothing without feeling heavy during recording. Rechargeable Battery Each microphone includes a 60mAh battery with 3–4 hours of use, suitable for short recording sessions, video shoots, and daily content creation.
