Description

Hoco HP63 Electric Oral Irrigator The Hoco HP63 Electric Oral Irrigator is designed for users who want a deeper daily oral cleaning routine at home or while traveling. With 40–120 PSI water pressure, four working modes, a 300ml water tank, and six cleaning nozzles, it helps clean between teeth, along the gumline, around braces, and other hard-to-reach areas. Its main value is flexible oral care for different needs. The included standard, tongue scraper, periodontal, orthodontic, and toothbrush nozzles make it practical for daily cleaning, braces care, gumline cleaning, and fresher breath support. Key Features Electric oral water irrigator 40–120 PSI high-pressure water pump Four working modes 1200–1400 pulses per minute Large 300ml water tank Detachable bottom cover for easier cleaning 6 cleaning nozzles included Standard, tongue scraper, periodontal, orthodontic, and toothbrush nozzles 2000mAh rechargeable battery Type-C charging IPX7 waterproof design ABS + PC material Portable cordless design Main Feature Sections 40–120 PSI Water Pressure The Hoco HP63 delivers adjustable high-pressure water cleaning to help remove food particles and clean areas that regular brushing may miss. Four Working Modes Four cleaning modes allow users to choose a more comfortable or stronger water pressure depending on daily cleaning needs and sensitivity. 300ml Water Tank The large 300ml tank provides enough water for a complete cleaning session, while the detachable bottom cover makes cleaning the tank easier. Six Cleaning Nozzles The package includes 2 standard nozzles, 1 tongue scraper, 1 periodontal nozzle, 1 orthodontic nozzle, and 1 toothbrush nozzle for different oral care routines. Type-C Rechargeable Battery The built-in 2000mAh battery charges through Type-C, making it convenient for home and travel use. IPX7 Waterproof Design The IPX7 waterproof body supports safe bathroom use and easier rinsing after cleaning.
