Description

Hoco H101 Sunrise Octopus Stand The Hoco H101 Sunrise Octopus Stand is designed for users who need a flexible and stable stand for mobile photography, vlogging, livestreaming, selfies, sports cameras, fill lights, and compact camera setups. With bendable octopus-style legs, 360° ball head rotation, anti-slip silicone grip, ABS + silicone construction, standard 1/4-inch screw mount, and support for 4.5–7 inch smartphones, it is a practical tripod-style stand for indoor, outdoor, and travel content creation. Key Features Flexible Octopus LegsThree bendable legs can wrap around railings, bicycle handlebars, tree branches, strollers, treadmills, shopping carts, tabletops, and other suitable surfaces. Freestanding or Wrapped UseCan be used standing on a flat surface or wrapped around compatible objects for more creative shooting angles. Any-Angle PositioningFlexible legs and adjustable ball head allow high-angle shots, low-angle shots, selfies, vlogs, livestreams, time-lapse videos, and panoramic-style framing. 360° Ball Head RotationSupports full horizontal rotation and multi-angle tilt adjustment for easier framing and composition. Horizontal & Vertical ShootingEasily switches between landscape and portrait orientation for photos, videos, reels, livestreaming, and social media content. Anti-Slip Silicone GripHigh-toughness silicone legs help improve grip and stability when wrapped around compatible surfaces. Durable ABS + Silicone ConstructionBuilt for regular indoor and outdoor use with a balance of flexibility, grip, and durability. Standard 1/4-Inch Screw MountSupports compatible mirrorless cameras, action cameras, fill lights, microphones, and other accessories with 1/4-inch screw mounting. Smartphone Holder SupportSuitable for 4.5–7 inch mobile phones with compatible width from 62–100mm. Compatible with Action CamerasSupports GoPro, DJI, Insta360, and other sports cameras that use compatible 1/4 screw mounting or suitable adapters.
