Description

Hoco H54 Brusco Car Dashboard & Windshield Phone Holder The Hoco H54 Brusco Car Phone Holder is designed for drivers who need a flexible and adjustable phone mount for dashboard or windshield use. With press-type clamping, 360° rotation, multi-angle adjustment, a telescopic rod, ABS + silicone construction, and support for 4.5–7 inch smartphones, it provides a practical hands-free setup for navigation, calls, music control, and everyday driving. Key Features Dashboard & Windshield MountingCan be mounted on compatible car dashboards or windshields for flexible placement. Supports 4.5–7 Inch SmartphonesFits most mobile devices within the supported size range. 55–85mm Clamp WidthDesigned to hold phones with widths between 55mm and 85mm. Press-Type Clamping SystemAllows easy phone placement and removal while keeping the device securely held. 360° RotationSupports portrait and landscape viewing for navigation, calls, and media control. Multi-Angle AdjustmentLets users adjust the phone position for a clearer and more comfortable viewing angle. Telescopic Rod DesignExtends or adjusts the phone position for better reach and visibility. ABS + Silicone ConstructionDurable ABS body with silicone contact areas helps improve grip and protect the phone from scratches. Textured & Polished FinishCombines texturing and polishing surface technology for a clean in-car appearance. Practical Daily Driving UseKeeps the phone positioned for GPS navigation, hands-free calls, music control, and safer screen visibility.
