Description

Hoco H67 Gamble Car Dashboard Phone Holder The Hoco H67 Gamble Car Dashboard Phone Holder is designed for drivers who want a stable and easy-to-use phone mount for navigation, calls, and daily in-car viewing. With gravity clamping, a suction cup dashboard mount, 360° ball joint rotation, ABS + silicone construction, and support for 4.5–7 inch smartphones, it provides a practical hands-free phone position for everyday driving. Key Features Dashboard Phone HolderDesigned to mount on a compatible car dashboard for convenient phone visibility while driving. Gravity Clamping DesignThe phone is held using a gravity-based clamp system for quick placement and removal. Supports 4.5–7 Inch SmartphonesSuitable for most mobile devices within the supported size range. 65–90mm Clamp WidthAdjustable phone support fits devices with widths between 65mm and 90mm. 360° Ball Joint RotationAllows flexible viewing in portrait or landscape orientation. Suction Cup MountAttaches to suitable dashboard surfaces using a suction cup base. ABS + Silicone ConstructionDurable ABS body with silicone contact areas helps improve grip and protect the phone. Textured Surface FinishClean textured surface gives the holder a practical in-car look. Compact In-Car DesignSized for dashboard use without taking too much space. Useful for Daily DrivingKeeps your phone positioned for GPS navigation, hands-free calls, and quick screen viewing.
