Product specification sheet

Product	Hoco GA5 Magnetic Phone Cooler
SKU	cm-GA5
Brand	Hoco
Category	Consumer Electronics
Minimum order quantity	1
Unit	—
Unit price	$15.00
Available quantity	100

Description

Hoco GA5 Magnetic Phone Cooler The Hoco GA5 Magnetic Phone Cooler is designed for users who need better heat control during gaming, video recording, livestreaming, charging, or heavy phone use. With magnetic attachment for iPhone 12 and above models, a clamp for non-magnetic phones under 7 inches, a brushless motor, 7-blade fan, three-level cooling adjustment, digital display, RGB lighting, and compact 70g design, it helps keep your phone cooler and more stable during demanding use. Key Features Magnetic Phone Cooling DesignSupports magnetic attachment for iPhone 12 and above models, making installation quick and clean. Compatible with Non-Magnetic PhonesIncludes a clamp for non-magnetic phones under 7 inches, with clamp width support from 65–95mm. Digital DisplayBuilt-in display gives the cooler a modern look and helps users monitor cooling status more easily. RGB Lighting EffectRGB lighting adds a gaming-style visual effect, making it attractive for mobile gamers and streamers. Three-Level Cooling AdjustmentAllows users to adjust heat dissipation depending on phone temperature and usage intensity. 5300 RPM Fan SpeedFan output reaches 5300 rpm ±10% for active heat dissipation. 7-Blade Fan DesignDesigned to move air efficiently across the cooling surface. Brushless MotorBrushless motor design supports smoother operation and better long-term reliability. Compact & Lightweight BuildMeasures 67 × 59.5 × 29mm and weighs only 70g, making it easy to carry and use. Useful for Heavy Phone UsageIdeal for mobile gaming, video recording, livestreaming, charging, and long phone sessions. Technical Specifications Product Type: Magnetic Phone Cooler Brand: Hoco Model: GA5 Material: PC Cooling Type: Active fan cooling Fan Speed: 5300 rpm ±10% Cooling Adjustment: Three-level heat dissipation adjustment Fan Design: 7 blades Motor Type: Brushless motor Display: Digital display Lighting: RGB lighting Magnetic Compatibility: iPhone 12 and above models Clamp Compatibility: Non-magnetic phones under 7 inches Clamp Size: 65–95mm Product Size: 67 × 59.5 × 29mm Weight: 70g Material: PC Use Case: Mobile gaming, livestreaming, video recording, long charging sessions, outdoor use, and heavy app usage Cooling Performance Fan Speed: 5300 rpm ±10% Cooling Levels: 3 levels Cooling Claim: Can be cooled/frozen at 25°C according to supplier specification Cooling Method: Active fan-based heat dissipation Compatibility iPhone 12 series and above with magnetic attachment MagSafe-compatible iPhone models Non-magnetic smartphones under 7 inches using the included clamp Phones with body width between 65–95mm when using the clamp Phones using compatible magnetic sheets or magnetic cases Best Use Cases Mobile gaming Livestreaming Long video recording sessions Charging while using the phone Outdoor phone use Heavy app usage Video calls Content creation Reducing thermal slowdown during demanding use Gaming setup with RGB style What’s in the Box Hoco GA5 Magnetic Phone Cooler × 1 Charging cable × 1 Magnetic sheet × 1 Clamp × 1
