Description

Hoco H78 Vista Car Air Outlet Phone Holder The Hoco H78 Vista Car Air Outlet Phone Holder is designed for drivers who want a compact, stable, and easy-to-reach phone mount for daily driving. With a hook-clip air outlet mount, press-type clamping, 360° rotation, ABS + silicone construction, and support for 4.5–7 inch smartphones, it keeps your phone positioned for navigation, calls, and music control without taking space on the dashboard. Key Features Air Outlet Phone HolderDesigned to mount directly on a compatible car air vent for convenient in-car phone placement. Hook-Clip Mount DesignUses a hook-clip structure to help provide a more secure grip on compatible air outlet blades. Supports 4.5–7 Inch DevicesFits most smartphones within the supported size range. 58–95mm Clamp WidthAdjustable clamp supports different phone widths for everyday compatibility. Press-Type Clamping SystemMakes phone placement and removal simple while keeping the device firmly held. 360° RotationAllows portrait or landscape viewing for navigation, calls, and media control. ABS + Silicone ConstructionDurable ABS body with silicone contact areas helps improve grip and protect the phone from scratches. Compact In-Car DesignSmaller than dashboard mounts, making it suitable for drivers who prefer a clean windshield and dashboard area. Textured & Colored Surface FinishFeatures texturing and coloring surface technology for a modern in-car appearance. Lightweight BuildWeighs only 98g, making it easy to install, remove, and move between compatible cars.
