Description

Hoco H79 Vista Car Dashboard Phone Holder The Hoco H79 Vista Car Dashboard Phone Holder is designed for drivers who need a secure and adjustable phone mount for daily navigation, calls, and hands-free viewing. With a strong suction cup, press-type clamp, telescopic rod, multi-angle adjustment, and support for 4.5–7 inch smartphones, it provides a stable dashboard mounting solution for everyday driving. Key Features Dashboard Phone HolderDesigned to mount securely on compatible car dashboards for easy phone visibility while driving. Supports 4.5–7 Inch DevicesFits most smartphones within the supported size range. 58–95mm Clamp WidthAdjustable clamp securely holds phones with different body widths. Press-Type Clamping SystemMakes it easy to place and remove the phone while keeping it firmly held during use. Strong Suction CupProvides stable dashboard attachment on suitable smooth surfaces. Telescopic Rod DesignAllows better positioning by extending or adjusting the viewing distance. Multi-Angle AdjustmentLets users adjust the phone angle for navigation, calls, music control, and better screen visibility. ABS + Silicone ConstructionDurable ABS body with silicone contact areas helps protect the phone and improve grip. Textured & Colored Surface FinishModern surface technology gives the holder a clean and practical in-car look. Practical In-Car ConvenienceKeeps the phone positioned for GPS navigation, hands-free calling, and quick access while driving.
