Description

Hoco H93 Magnetic Monitor Stand The Hoco H93 Magnetic Monitor Stand is designed for users who want a clean and practical way to keep their smartphone visible beside a car display screen or laptop screen. With a slim aluminum alloy body, oxidation surface treatment, magnetic phone holding design, and support for 4.5–7.0 inch smartphones, it is a useful accessory for hands-free viewing, navigation, video calls, multitasking, and desktop productivity. Key Features Magnetic Phone Holding DesignProvides convenient magnetic attachment for compatible phones and MagSafe-style setups. Aluminum Alloy ConstructionBuilt with a durable aluminum alloy body for a strong, slim, and lightweight design. Oxidation Surface TreatmentGives the stand a clean, refined finish with better everyday surface durability. Slim Monitor-Side DesignDesigned to attach beside compatible car display screens or laptop back panels. Compatible with 4.5–7.0 Inch SmartphonesSupports most smartphones within the suitable size range when used with the correct magnetic setup. Optimized for iPhone 12–16 SeriesMainly designed for MagSafe-compatible iPhone models from iPhone 12 to iPhone 16 series. Useful for Car Display ScreensHelps keep the phone visible near the car screen for navigation, calls, and quick viewing. Useful for Laptop Back PanelsCreates a side-mounted phone setup for multitasking, video calls, messages, and productivity. Compact & LightweightSlim 142 × 57 × 9mm design and 67g weight make it easy to carry and install. Clean Workspace SetupHelps reduce desk clutter by keeping the phone positioned beside the laptop screen.
