Description

Hoco H96 Magnetic Flexible Phone Mount The Hoco H96 Magnetic Flexible Phone Mount is designed for users who need a practical, adjustable, and portable phone holder for different daily setups. With a flexible silicone hose design, MagSafe-compatible magnetic attachment, durable PC + ABS + silicone + aluminum alloy construction, and support for most 4.5–7.0 inch smartphones, it can be used on desktops, strollers, treadmills, bicycles, car headrests, railings, shopping carts, and other suitable mounting areas. Key Features Flexible Hose DesignThe bendable silicone hose base can be shaped to fit different mounting positions and angles. MagSafe-Compatible Magnetic MountDesigned for easy magnetic attachment with compatible iPhone models and MagSafe-style setups. Optimized for iPhone 12–17 SeriesWorks best with MagSafe-compatible iPhone models from the iPhone 12 series through iPhone 17 series. Supports 4.5–7.0 Inch SmartphonesSuitable for most smartphones within the supported size range when used with the proper magnetic setup. Multi-Scene Mounting UsePractical for desktops, baby strollers, treadmills, bicycles, car headrests, railings, and shopping carts. Durable Mixed-Material BuildMade from PC, ABS, silicone, and aluminum alloy for strength, flexibility, and long-lasting everyday use. Silicone Base GripHelps improve stability and protects contact surfaces during use. Multi-Angle AdjustmentFlexible structure allows users to position the phone for viewing, recording, navigation, video calls, or content watching. Compact & LightweightSlim 58 × 58 × 460mm design and 125g weight make it easy to carry, store, and move between setups. Textured Sun-Drying Pattern FinishProfessional textured surface gives the holder a clean and modern appearance.
