Description

Hoco Graceful E151 Universal AUX Bluetooth Audio Adapter The Hoco Graceful E151 Universal AUX Bluetooth Audio Adapter is designed to add wireless Bluetooth audio to devices with a 3.5mm AUX connection. With 2-in-1 receiver and transmitter modes, Bluetooth 5.4, a compact 10g body, 150mAh rechargeable battery, and up to 7 hours working time in RX mode, it is a practical solution for cars, speakers, TVs, PCs, headphones, and other non-Bluetooth audio devices. Key Features 2-in-1 Receiver & Transmitter ModesWorks as both a Bluetooth receiver and Bluetooth transmitter for flexible audio use. Bluetooth 5.4 TechnologyProvides faster pairing and stable wireless audio connection. AUX 3.5mm ConnectorAdds Bluetooth functionality to non-Bluetooth devices with a 3.5mm AUX port. Receiver Mode RXLets wired speakers, car AUX systems, or headphones receive Bluetooth audio from phones, tablets, or laptops. Transmitter Mode TXAllows non-Bluetooth devices such as TVs or PCs to transmit audio to Bluetooth headphones or speakers. Compact & Lightweight DesignSmall 23 × 100 × 13mm body and 10g weight make it easy to carry and use while traveling. Long Battery LifeSupports up to 7 hours in receiver mode and up to 4 hours in transmitter mode. Fast ChargingFully charges in approximately 2 hours. Long Standby TimeUp to 200 hours standby time for convenient daily use. Wide CompatibilitySuitable for TVs, PCs, cars, speakers, headphones, smartphones, tablets, and other AUX-supported devices.
