Description

Hoco CW66 2-in-1 Type-C Cable with Apple Watch Charger The Hoco CW66 2-in-1 Type-C to Apple Watch Charging Cable is a practical charging solution for users who want one cable for two everyday devices. It combines a Type-C charging connector with a built-in magnetic Apple Watch charging module, helping reduce cable clutter at home, in the office, or while traveling. With support for up to 100W power via Type-C, the CW66 can charge compatible smartphones, tablets, and selected laptops, while the Apple Watch magnetic charger keeps the watch fixed in place during charging. Its 1.2-meter length, braided outer design, and reinforced connectors make it convenient for daily use. Key Features 2-in-1 charging cable for Type-C devices and Apple Watch Supports up to 100W power through the Type-C connector Built-in magnetic charging module for Apple Watch Allows charging of two devices at the same time Helps reduce the number of cables on your desk, bedside table, or travel setup 1.2-meter cable length for more flexible placement Strong outer braided design for improved durability Reinforced connectors help reduce stress from regular bending and plugging Compatible with many Type-C smartphones, tablets, and selected laptops Practical for home, office, travel, and daily carry use Technical Specifications Product: Hoco CW66 2-in-1 Type-C to Apple Watch Cable Charging type: Type-C charging cable with Apple Watch magnetic charger Type-C power support: Up to 100W Apple Watch charging: Built-in magnetic charging module Cable length: 1.2 meters Simultaneous charging: Supports charging two devices at the same time Cable design: Strong outer braided construction Connector design: Reinforced connectors Compatibility: Type-C smartphones, tablets, selected laptops, and Apple Watch What’s in the Box Hoco CW66 2-in-1 Type-C to Apple Watch Charging Cable × 1
