Description

Hoco Car Air-Outlet Phone Holder CA86 The Hoco CA86 Car Air-Outlet Phone Holder is a compact and practical phone mount designed for easy in-car use. It attaches to the car air vent and keeps your phone visible while driving, making it suitable for navigation, hands-free calls, and everyday road use. With one-handed operation, 360° rotation, and adjustable tilt, the CA86 gives drivers a simple way to position their phone at a comfortable viewing angle. Its ABS + silicone construction helps provide a firm grip while protecting the phone from scratches. Key Features Car air-outlet phone holder for everyday driving use Supports one-handed operation for quick phone placement and removal 360° rotation and tilt for flexible viewing angles Suitable for smartphones with 4.5–7 inch screen sizes Adjustable clamp range from 62mm to 95mm Made from ABS + silicone material Silicone contact points help reduce slipping and scratches Compact design that fits neatly on the car air vent Useful for navigation, calls, and hands-free phone visibility Technical Specifications Feature Specification Product Hoco Car Air-Outlet Phone Holder CA86 Model CA86 Mount Type Car air-outlet / air vent holder Operation One-handed operation Rotation 360° rotate and tilt Phone Compatibility 4.5–7 inch smartphones Clamp Range 62–95mm Material ABS + Silicone
