Description

Hoco CA119 Motorcycle Rearview Mirror Phone Holder The Hoco CA119 Motorcycle Phone Holder is designed for riders who need a stable and adjustable phone mount for navigation, calls, and daily riding convenience. Built for 4.5–7 inch mobile devices, it mounts onto the motorcycle rearview mirror area and features press-type clamping, 360° rotation, one-key locking, and a durable ABS, PC, silicone, and aluminum alloy structure for secure support on the road. Key Features Motorcycle Rearview Mirror MountDesigned to install around the motorcycle rearview mirror mounting area for convenient phone positioning. Fits 4.5–7 Inch PhonesCompatible with most smartphones within the supported size range. Adjustable Clamp WidthSupports phone widths from 70–90mm for secure device holding. Adjustable Clamp LengthSupports phone lengths from 135–175mm. Press-Type Clamping SystemMakes it easy to place and secure the phone quickly. One-Key Locking DesignHelps keep the phone holder stable and firmly locked during rides. 360° RotationAllows horizontal or vertical viewing, useful for navigation and screen visibility. Stable Support StructureDesigned to reduce movement and keep the phone secure during daily motorcycle use. Durable Mixed MaterialsMade from ABS, PC, silicone, and aluminum alloy for strength, grip, and device protection. Silicone Contact ProtectionHelps reduce scratching and improves grip around the phone. Textured Surface FinishAdds a cleaner look and better handling feel.
