Description

Insta360 Helmet Chin Mount 2.0 The Insta360 Helmet Chin Mount 2.0 is designed for riders and action creators who want immersive first-person POV footage from a helmet-mounted camera setup. With a universal 3-prong connector, improved buckle mechanism, hidden built-in mic mount, and compatibility with full face, modular, off-road, and dual-sport helmets, it is a strong accessory for motorcycle riding, action sports, motovlogging, and hands-free filming. Key Features Immersive Helmet POV ShotsMount your Insta360 camera to the chin area of your helmet for a natural first-person riding perspective. Universal 3-Prong ConnectorUpdated 3-prong mount design supports a wide range of Insta360 cameras and action camera setups. Built-In Invisible Mic MountHidden mic mount allows riders to attach compatible helmet microphones for motovlogging, rider communication, and recorded audio. Improved Buckle MechanismDesigned for stronger stability and secure attachment during active riding. Wide Helmet CompatibilityCompatible with full face, modular, off-road, and dual-sport helmets. Action Camera ReadyWorks with multiple Insta360 cameras, including X series, GO series, Ace series, ONE series, and GO Ultra with the required mount. Designed for Motorcycle ContentIdeal for riding footage, road trips, POV action videos, and creator-style motorcycle content. Clean Helmet SetupKeeps the camera positioned at the front of the helmet for balanced framing and immersive viewing.
