Description

Hoco Q3 Pro 10000mAh Power Bank The Hoco Q3 Pro 10000mAh Power Bank is a compact fast-charging power bank designed for everyday phone charging, travel, work, and emergency backup power. With 22.5W USB output, 20W USB-C PD output, 18W fast input, LED digital display, and a lightweight 168g design, it gives users a practical balance of speed, portability, and daily convenience. Key Features 10000mAh Battery CapacityProvides reliable backup power for smartphones, earbuds, smartwatches, and other small USB-powered devices. 22.5W USB Fast Charging OutputSupports fast charging through the USB port for compatible QC, FCP, SCP, and AFC devices. 20W USB-C PD OutputUSB-C Power Delivery output supports up to 20W charging for compatible smartphones and accessories. 18W Dual Input OptionsRecharges through Micro-USB or Type-C input, with support for common fast-charging protocols. LED Digital DisplayShows the remaining battery percentage clearly, making it easier to know when to recharge. Compact Pocket-Friendly SizeSmall 81 × 59 × 25mm body is easy to carry in a bag, pouch, or pocket. Lightweight 168g DesignPractical for daily carry without adding too much weight. Flame-Retardant ShellABS + PC flame-retardant material improves durability and safety for everyday use. 21700 Battery CellBuilt with a 21700 battery cell for a compact and efficient internal design. Multi-Protocol SupportSupports PD, QC, FCP, SCP, and AFC charging protocols depending on the connected device and cable. Technical Specifications Product Type: Portable Power Bank Brand: Hoco Model: Q3 Pro Battery Capacity: 10000mAh / 37Wh Rated Capacity: 5400mAh Micro-USB Input: 18W, supports QC / FCP / AFC Type-C Input: 18W, supports PD / QC / FCP / AFC USB Output: 22.5W, supports QC / FCP / SCP / AFC Type-C Output: 20W, supports PD / QC / FCP / AFC Total Output: 5V / 3A Display: LED digital display Material: ABS + PC flame-retardant shell Battery Cell: 21700 battery Size: 81 × 59 × 25mm Weight: 168g Battery Life Battery Capacity: 10000mAh / 37Wh Rated Capacity: 5400mAh Actual number of charges depends on the connected device battery size, charging cable, output mode, charging protocol, and whether more than one device is connected.
