Description

DJI Osmo Pocket 4P Vlog Combo Short Strategic Positioning Paragraph The DJI Osmo Pocket 4P Vlog Combo is designed for creators who want cinematic handheld video in a compact, travel-friendly camera. With dual cameras, an enhanced 1-inch CMOS sensor, 3-axis stabilization, ActiveTrack, 4K high-frame-rate slow motion, D-Log 2, and built-in storage, it is built for vlogging, portraits, travel videos, product content, and social media storytelling with more creative flexibility than a standard pocket camera

Key Features

- Dual-Camera Creative System** Combines a wide-angle camera for cinematic scenes with a med-tele camera for closer portraits and more natural background separation.
- Enhanced 1-Inch CMOS Sensor** The wide-angle camera is designed to capture richer detail, stronger low-light performance, and improved highlight and shadow control.
- 17-Stop Dynamic Range** Helps balance bright and dark areas in challenging lighting conditions for more flexible cinematic shooting.
- Classic Portrait Focal Length** The 60mm med-tele camera supports 3× optical zoom and a natural portrait look with smoother background blur.
- Up to 12× Zoom** Gives creators more framing flexibility when shooting distant subjects or tighter portrait compositions.
- 4K High-Frame-Rate Slow Motion** Supports up to 4K/240fps slow motion on the wide-angle camera and up to 4K/200fps on the med-tele camera for dramatic highlight moments.
- New D-Log 2 Color Profile** Provides 10-bit color depth and more flexibility for creators who want greater control in editing and color grading.
- 3-Axis Mechanical Stabilization** Keeps footage steady during handheld shooting, walking shots, travel clips, and moving scenes.
- ActiveTrack Support** Helps keep subjects centered in the frame, useful for vlogging, solo shooting, portraits, and moving subjects.
- In-Camera 4K Live Photo Support** Captures short motion moments before and after a shot, giving photos a more dynamic feel.
- Built-In 103GB Storage** Offers internal storage for shooting without relying only on a memory card.
- microSD Expansion up to 1TB** Supports large-capacity microSD cards for extended recording sessions.
- 2.0-Inch Touchscreen** Bright 1000-nit display helps with framing, settings, and outdoor visibility.
- Lightweight 230g Body** Compact enough for travel, daily carry, vlogging, and handheld creator setups.
- Fast Charging Support** Charges to 80% in around 18 minutes and reaches 100% in around 32 minutes
