Description

Coteci Passport Bag Anti-Theft RFID Wrist Strap The Coteci Passport Bag Anti-Theft RFID Wrist Strap is designed for travelers who want a slim and secure way to carry essential documents, cards, and small valuables. With RFID protection, zipper closure, and a compact wrist strap design, it is practical for airports, trips, daily errands, and travel organization. Its main value is simple travel security. The slim polyester body keeps passports, cards, and cash organized while RFID protection helps reduce the risk of unwanted card scanning. Key Features Passport travel bag Anti-theft RFID protection Wrist strap design Zipper closure Compact slim size Unisex design Minimalist style Polyester main material Polyester lining Suitable for passport, cards, cash, and small travel essentials Practical for travel, airport use, and daily carry Main Feature Sections RFID Protection The Coteci Passport Bag includes RFID protection to help shield supported cards from unwanted wireless scanning during travel or daily use. Compact Travel Size With a size of 20.5 × 11 × 1cm, the bag is slim enough to carry comfortably while still offering space for important travel essentials. Zipper Closure The zipper closure helps keep items more secure inside the bag, making it useful for passports, cards, cash, and small documents. Wrist Strap Convenience The wrist strap design makes it easier to carry the bag by hand and keeps essentials close while moving through airports, shops, or crowded places. Minimalist Unisex Design The simple normcore/minimalist style makes it suitable for both men and women and easy to match with different travel outfits.
