Description

Shokz OpenDots ONE Open Ear Headphones The Shokz OpenDots ONE Open Ear Headphones are designed for users who want lightweight clip-on earbuds that stay secure while keeping the ears open to the surrounding environment. With a 6.5g ultra-light design, Dolby Audio, Bassphere Technology, and a flexible JointArc fit, they deliver comfort and sound for work, fitness, commuting, and daily listening. Their main value is secure open-ear freedom. The clip-on design stays in place without entering the ear canal, while up to 40 hours of total battery life, wireless charging, clear calls, and multipoint pairing make them practical for everyday use. Key Features Open-ear clip-on design Ultra-lightweight 6.5g comfort Secure nickel-titanium JointArc fit Soft silicone grip Dolby Audio support Bassphere Technology with dual circular drivers DirectPitch Technology to reduce sound leakage Up to 10 hours battery per charge Up to 40 hours total listening with case 10-minute quick charge gives up to 2 hours listening Wireless charging case Interchangeable left/right earbuds Dynamic Ear Detection 4 preset EQ modes Custom EQ through Shokz App Adaptive Beamforming microphones AI noise reduction for calls IP54 water resistance Multipoint pairing Compatible with eyewear and accessories Main Feature Sections Open-Ear Clip-On Comfort The OpenDots ONE uses a clip-on open-ear design that keeps the ear canal open, making it more comfortable for long listening while helping users stay aware of their surroundings. Secure JointArc Fit The flexible nickel-titanium JointArc structure and soft silicone grip help the earbuds stay stable during movement, workouts, commuting, and daily use. Premium Sound with Dolby Audio Dolby Audio, Bassphere Technology, and dual circular drivers help deliver detailed sound with stronger bass in a compact open-ear design. Reduced Sound Leakage DirectPitch Technology helps keep audio more focused toward the listener, reducing sound leakage compared with basic open-ear earbuds. Wireless Charging and Long Battery Life The earbuds offer up to 10 hours of listening per charge and up to 40 hours with the charging case. A 10-minute quick charge provides up to 2 hours of listening. Smart Interchangeable Earbuds Dynamic Ear Detection automatically detects which earbud is in which ear, so users can wear and store them interchangeably without worrying about left or right labels. Clear Calls Anywhere Adaptive Beamforming microphones and AI noise reduction help keep voice clearer during calls, even in noisy environments. App Control and Multipoint Pairing The Shokz App allows EQ customization and gesture control settings, while multipoint pairing lets users connect to two devices at the same time.
