SKU	cm-T010
Brand	Shokz
Category	Audio & Video
Minimum order quantity	1
Unit	—
Unit price	$265.00
Available quantity	100

Description

Shokz OpenFit Pro Open-Ear Earbuds The Shokz OpenFit Pro is designed for users who want open-ear comfort, premium sound, awareness of their surroundings, and secure all-day wear for work, fitness, commuting, and daily listening. Its strongest selling point is not only the open-ear design. The real value is the combination of Shokz SuperBoost™ sound, open-ear noise reduction, secure titanium-enhanced ear hooks, AI-powered call clarity, IP55 resistance, wireless charging, and up to 50 hours total playtime. Key Features Open-ear wireless earbuds Shokz SuperBoost™ technology 11 × 20mm ultra-large driver Synchronized dual-diaphragm design OpenBass 2.0 DirectPitch™ 3.0 Dolby Atmos optimization Open-Ear Active Noise Reduction Triple-mic noise reduction system AI-powered call clarity Reduces up to 99.4% of background noise during calls Custom wind-control technology Secure nickel-titanium alloy ear hooks Shokz Ultra-Soft Silicone™ 2.0 Up to 50 hours total playtime with charging case Up to 12 hours listening on a single charge Up to 6 hours with noise reduction on 10-minute quick charge gives up to 4 hours playback Qi-compatible wireless charging Multipoint pairing Smart wear detection Physical button controls IP55 water and dust resistance Bluetooth 6.1 Open-Ear Listening Awareness Without Ear Pressure The open-ear design keeps the ear canal free, allowing users to listen to music, calls, and podcasts while staying aware of their surroundings. Real Buyer Benefit This is especially useful for outdoor walking, commuting, gym training, office use, and long listening sessions where comfort and awareness matter. Sound Performance Shokz SuperBoost™ Technology Shokz SuperBoost™ helps deliver dynamic sound with richer detail, clearer highs, and stronger low-end performance. 11 × 20mm Ultra-Large Driver The large driver design improves sound fullness and helps create a more immersive open-ear listening experience. Dual-Diaphragm Design The synchronized dual-diaphragm structure expands the frequency range up to 40kHz, supporting crisp treble, deeper bass, and lower distortion. OpenBass 2.0 and DirectPitch™ 3.0 These technologies help improve bass delivery and sound direction while keeping the open-ear experience comfortable. Open-Ear Noise Reduction Innovative Open-Ear Active Noise Reduction The OpenFit Pro is built to balance awareness and focus by reducing surrounding noise while still keeping the open-ear advantage. Triple-Mic Noise Reduction System A triple-mic system works with an ear-adaptive algorithm to analyze noise in real time and adjust noise reduction more personally. Adjustable Noise Control Users can fine-tune noise reduction levels depending on environment, such as work, fitness, leisure, or outdoor use. Comfort & Fit Titanium-Enhanced Stability Ultra-thin nickel-titanium alloy ear hooks flex to match different ear shapes, helping the earbuds stay secure during movement. Shokz Ultra-Soft Silicone™ 2.0 The soft silicone material provides a gentle skin-friendly feel for longer wear. Secure for Daily Movement The design is suitable for workouts, walking, commuting, and long workdays without blocking the ear canal. Call Quality AI-Powered Call Clarity A triple-mic array with AI voice recognition helps focus on the user’s voice and reduce background noise. Up to 99.4% Background Noise Reduction The call system is designed to reduce unwanted noise and keep speech clearer during calls. Wind-Control Technology Custom wind-control technology improves call clarity outdoors, especially when commuting, walking, or training. Battery Life Total Playtime Up to 50 hours total playtime with the charging case. Single-Charge Listening Up to 12 hours listening time on a single charge. Noise Reduction Playback Up to 6 hours listening time with noise reduction enabled. Quick Charge A 10-minute charge provides up to 4 hours of playback. Wireless Charging The charging case supports Qi-compatible wireless charging. Controls & Smart Features Physical Button Controls Waterproof physical buttons with a raised design provide more reliable control and help reduce accidental touches. Smart Wear Detection The earbuds can automatically play when worn and pause when removed using hybrid optical and capacitive sensors. Multipoint Pairing Connect to two devices at the same time through the Shokz App and switch between phone, tablet, or laptop more easily. Durability IP55 Water & Dust Resistance The OpenFit Pro is built for sweat, light rain, dust, workouts, and daily outdoor use. Important Reality IP55 is suitable for sweat and splashes, but the earbuds are not designed for swimming or full water submersion.
