Product specification sheet

Product	Xiaomi Night Light 3
SKU	cm-Light 3
Brand	Xiaomi
Category	Home Decor
Minimum order quantity	1
Unit	—
Unit price	$28.00
Available quantity	100

Description

Xiaomi Night Light 3 The Xiaomi Night Light 3 is designed for users who want soft, automatic lighting for bedrooms, hallways, bathrooms, staircases, children’s rooms, and entryways. With motion detection, light-sensitive sensing, two brightness levels, and a rechargeable battery, it provides gentle night lighting without needing to press a button. Its main value is convenient comfort in the dark. The night light automatically turns on when movement is detected in a dark environment and can also be switched to constant light mode when continuous lighting is needed. Key Features Soft ambient night light Smart motion detection Light-sensitive sensor 120° detection angle Up to 5m forward sensing range Up to 3m side sensing range Two brightness levels Low brightness: 3lm High brightness: 15lm Sensor mode and constant light mode 600mAh rechargeable lithium battery Type-C charging Around 3 hours full charging time Up to 8 months battery life in low-brightness sensor mode Built-in magnet 3M adhesive base included Suitable for bedrooms, bathrooms, hallways, staircases, and children’s rooms Main Feature Sections Soft Ambient Glow The Xiaomi Night Light 3 provides diffused lighting that creates a gentle and comfortable glow, helping users move around at night without harsh brightness. Smart Dual Sensor Detection The light uses motion and light sensors to turn on automatically when movement is detected in a dark environment below 10lx. If no movement is detected, it switches off after around 15 seconds. Two Brightness Levels Users can choose between low brightness at 3lm for soft nighttime lighting or high brightness at 15lm when more visibility is needed. Sensor and Constant Light Modes The slide switch allows users to choose OFF, ON, or AUTO mode. ON keeps the light continuously illuminated, while AUTO activates sensor-based lighting. Rechargeable Long Battery Life The built-in 600mAh lithium battery charges through Type-C and fully charges in around 3 hours. In low-brightness sensor mode, it can last up to 8 months based on 10 activations per day for 15 seconds each. Easy Magnetic Installation The built-in magnet allows the night light to attach to magnetic surfaces. The included 3M adhesive base helps install it on suitable smooth surfaces such as wood, coated metal, or tiles. Technical Specifications Product Name: Xiaomi Night Light 3 Product Type: Rechargeable motion sensor night light Battery Capacity: 600mAh lithium battery Charging Port: Type-C Charging Time: Approx. 3 hours Battery Life: Up to 8 months in low-brightness sensor mode Brightness Levels: 2 levels Low Brightness: 3lm High Brightness: 15lm Detection Angle: 120° Forward Sensing Range: Up to 5m Side Sensing Range: Up to 3m Sensor Mode: Motion detection in dark environments below 10lx Auto-Off Time: Around 15 seconds without movement Modes: OFF / ON / AUTO Installation: Magnetic attachment + 3M adhesive base Recommended Use: Bedroom, bathroom, hallway, staircase, children’s room, entryway, bedside area Battery Life Battery Capacity: 600mAh Charging Time: Approx. 3 hours Charging Port: Type-C Battery Life: Up to 8 months in low-brightness sensor mode Actual battery life may vary depending on brightness level, activation frequency, temperature, and environment.
