Product	Vilo M2 Electric Scooter
SKU	cm-vilo-m2-250w
Brand	Vilo
Category	Automobiles & Motorcycles
Minimum order quantity	1
Unit	—
Unit price	$290.00
Available quantity	0

Description

Vilo M2 Electric Scooter The Vilo M2 Electric Scooter is designed for riders who want a simple foldable scooter for daily short-distance commuting and casual city rides. With a 250W brushless motor, 36V/6Ah lithium battery, 8.5-inch honeycomb solid tires, and compact foldable design, it offers practical mobility for everyday use. Its main value is lightweight urban convenience. The scooter includes 4 speed modes, an electric brake, LED headlight, rear brake light, cruise control, and a display showing battery, range, and speed. Key Features 250W brushless motor Foldable electric scooter design Iron frame material 36V/6Ah lithium battery 8.5-inch honeycomb solid tires Electric brake system 25km estimated range 30km/h maximum speed 120kg weight capacity 15-degree climbing capability 4 speed modes LED headlight Rear brake light Cruise control function Display for battery, range, and speed 4–5 hours charging time Main Feature Sections 250W Brushless Motor The Vilo M2 is powered by a 250W brushless motor, making it suitable for short commutes, casual rides, and daily city movement. 36V/6Ah Lithium Battery The 36V/6Ah lithium battery provides an estimated range of up to 25km, depending on rider weight, speed, road surface, incline, and riding habits. 8.5-Inch honeycomb solid tires The 8.5-inch honeycomb solid tires help provide smoother riding comfort compared, making the scooter practical for regular city roads. Electric Brake System The electric brake offers simple stopping control for daily riding and short-distance commuting. Foldable Iron Frame The foldable design makes the scooter easier to store or transport, while the iron frame provides a strong structure for regular use. Display and Speed Modes The display shows important riding information including battery, range, and speed. With 4 speed modes, riders can adjust performance based on road conditions and comfort. Lighting and Cruise Control The LED headlight, rear brake light, and cruise control function add convenience for daily travel and longer straight routes. Technical Specifications Product Name: Vilo M2 Electric Scooter Product Type: Foldable electric scooter Material: Iron Motor: 250W brushless motor Battery: 36V/6Ah lithium battery Wheel Size: 8.5 inches Tire Type: honeycomb solid Brake System: Electric brake Range: Up to 25km Max Speed: 30km/h Weight Capacity: 120kg Climbing Capability: 15 degrees Speed Modes: 4 speed modes Display: Battery, range, and speed Charger: 42V/1.5A Charging Time: 4–5 hours Lighting: LED headlight and rear brake light Cruise Control: Supported Battery Life Battery: 36V/6Ah lithium battery Range: Up to 25km Charging Time: 4–5 hours Charger: 42V/1.5A
