Product specification sheet

Product	Vilo E5 Max Electric Scooter
SKU	cm-2604JYE5max01099
Brand	Vilo
Category	Automobiles & Motorcycles
Minimum order quantity	1
Unit	—
Unit price	$365.00
Available quantity	0

Description

Vilo E5 Max Electric Scooter 500W The Vilo E5 Max Electric Scooter 500W is designed for riders who want a foldable smart electric scooter for daily commuting, city rides, and comfortable travel. With a 500W brushless motor, 36V/13Ah lithium battery, 10-inch honeycomb solid tires, and smart app support, it offers a practical mix of power, comfort, and connected features. Its main value is smooth everyday riding. The front and rear suspension, LED lighting, cruise control, display, and electric brake with rear disc brake system make it a strong option for users who want comfort and control in a foldable scooter. Key Features 500W brushless motor Foldable electric scooter design Smart app support Aluminum alloy frame 36V/13Ah lithium battery 10-inch honeycomb solid tires Electric brake + rear disc brake Front and rear suspension 45–50km estimated range Speed modes: 6 / 10 / 20 / 25km/h Lifted speed limit: 6 / 15 / 20 / 35km/h 120kg weight capacity 15-degree climbing capability LED headlight Rear brake light Cruise control function Display for battery, range, and speed 6–8 hours charging time Main Feature Sections 500W Brushless Motor The Vilo E5 Max is powered by a 500W brushless motor, giving riders reliable performance for city commuting, daily routes, and moderate inclines. 36V/13Ah Lithium Battery The 36V/13Ah lithium battery supports an estimated range of 45–50km, depending on rider weight, road condition, speed, battery condition, and riding style. Front and Rear Suspension The front and rear suspension system helps reduce road vibration and makes daily rides more comfortable on uneven surfaces. Braking System The scooter combines an electric brake with a rear disc brake system, giving riders practical stopping control for everyday use. Smart App and Display Smart app support adds connected convenience, while the display shows key riding information such as battery level, range, and speed. Lighting and Cruise Control The LED headlight, rear brake light, and cruise control function improve convenience for longer rides and daily commuting. Technical Specifications Product Name: Vilo E5 Max Electric Scooter 500W Product Type: Foldable smart electric scooter Material: Aluminum alloy Motor: 500W brushless motor Battery: 36V/13Ah lithium battery Wheel Size: 10 inches Tire Type: honeycomb solid Brake System: Electric brake + rear disc brake Suspension: Front and rear suspension Range: 45–50km Speed Modes: 6 / 10 / 20 / 25km/h Lifted Speed Limit: 6 / 15 / 20 / 35km/h Weight Capacity: 120kg Climbing Capability: 15 degrees Display: Battery, range, and speed Charger: 42V/2A Charging Time: 6–8 hours Lighting: LED headlight and rear brake light Cruise Control: Supported Smart App: Supported Battery Life Battery: 36V/13Ah lithium battery Range: 45–50km Charging Time: 6–8 hours Charger: 42V/2A
