Description

Insta360 X5 Essentials Bundle The Insta360 X5 Essentials Bundle is designed for creators, travelers, athletes, and vloggers who want premium 360° capture with the accessories needed to start filming properly. With 8K30fps 360° video, dual 1/1.28-inch sensors, FlowState Stabilization, and waterproof protection up to 15m, it is built for action, adventure, travel, and everyday content Its main value is complete creative flexibility. The X5 captures everything around you first, then lets you reframe later for social media, YouTube, POV shots, action clips, and cinematic edits without missing the moment Key Features 8K30fps 360° video recording Dual 1/1.28-inch sensors Triple AI chip system Better low-light performance PureVideo low-light enhancement InstaFrame Mode 72MP photo capture Replaceable lens design Tough scratch-resistant lenses FlowState Stabilization 360° Horizon Lock Wind Guard audio protection Waterproof up to 15m Advanced AI-powered shooting modes Essentials Bundle accessories included Main Feature Sections 8K 360° Video The Insta360 X5 records up to 8K30fps 360° video, capturing sharp detail, richer colour, and immersive footage for action, travel, sports, and creative storytelling. Dual 1/1.28-Inch Sensors The large dual sensors help improve clarity, dynamic range, and image quality, especially when filming fast movement, outdoor scenes, and detailed environments. Triple AI Chip System The triple AI chip design powers advanced image processing, noise reduction, and better low-light performance for cleaner footage in challenging lighting. InstaFrame Mode InstaFrame Mode lets users create a ready-to-share flat video instantly, with auto-framing or fixed-angle options. The full 360° footage can still be reviewed later for extra moments. Replaceable Lens Design The X5 features tougher, scratch-resistant, fully replaceable lenses that can be swapped quickly, helping creators stay ready for demanding shoots. FlowState Stabilization and Horizon Lock FlowState Stabilization keeps footage smooth, while 360° Horizon Lock helps maintain level shots during action, movement, and rotation. Waterproof Adventure Design With waterproof protection up to 15m, the X5 is suitable for water activities, outdoor use, beach trips, and adventure filming.
