Product specification sheet

Product	Hoco HX608 Clip-On Fan
SKU	cm-HX608-clip
Brand	Hoco
Category	Home Appliances
Minimum order quantity	1
Unit	—
Unit price	$28.00
Available quantity	0

Description

Hoco HX608 Portable Clip-On Desktop Fan The Hoco HX608 Portable Fan is designed for customers who want a flexible cooling solution for desks, bedrooms, offices, kitchens, travel, and outdoor use. With three mounting options, automatic rotation, a built-in 3600mAh battery, and 5 airflow levels, it gives users more control over where and how they use their fan. Its strongest selling point is the versatile mounting design. The HX608 can be placed on a desktop, attached with its clip, or mounted on a wall using the integrated flip-out bracket and wall mounting hole, making it practical for home, office, bedside, stroller, shelf, camping, and personal cooling setups. Key Features Portable desktop fan 3 mounting options: desktop, clip attachment, and wall mounting Integrated flip-out bracket Wall mounting hole Automatic rotation / oscillation 6-inch fan blades 5 airflow levels Up to 2000RPM rotation speed 4.5m/s airflow speed 40dB airflow noise 4.5W power LED digital display 4-button control system Timer function: 2 / 4 / 6 / 8 hours 3600mAh rechargeable battery 2.5–8 hours use time Type-C charging port 5V/2A charging input 4-hour charging time Compact size for indoor and outdoor use Made from ABS and electronic components Type-C charging cable included Main Feature Sections 3-in-1 Mounting Design The Hoco HX608 can be used in three different ways: placed on a desk, attached with the clip, or mounted on a wall. This makes it more flexible than a standard desktop fan and suitable for many spaces. Automatic Rotation The fan supports automatic oscillation, helping spread airflow across a wider area. Users can turn oscillation on or off using the dedicated oscillation button. 5 Airflow Levels The HX608 offers 5 airflow levels, allowing users to adjust cooling strength based on comfort and environment. The airflow level button cycles through preset levels: 20, 40, 60, 80, and 100. 6-Inch Fan Blades The 6-inch blade design provides practical airflow for personal cooling, desk use, bedside use, office setups, and small indoor or outdoor spaces. Quiet Daily Operation With 40dB airflow noise, the fan is suitable for daily use in bedrooms, offices, study areas, and workspaces where moderate noise control matters. Rechargeable 3600mAh Battery The built-in 3600mAh battery provides cordless use for 2.5 to 8 hours depending on airflow level. This makes the fan useful during power cuts, travel, camping, or outdoor use. Type-C Charging The fan charges through a Type-C port with 5V/2A input. A full charge takes around 4 hours, and a Type-C charging cable is included. LED Digital Display The LED digital display makes it easy to check fan status and settings, giving the HX608 a cleaner and more modern user experience. Timer Function The timer button allows users to set automatic shut-off for 2, 4, 6, or 8 hours. This is useful for sleep, work, study, and controlled cooling sessions. Simple 4-Button Control The fan includes four dedicated buttons for oscillation, power, airflow level, and timer. This makes operation clear and easy without complicated controls. Indoor and Outdoor Use With its compact size, built-in battery, and flexible mounting options, the HX608 is suitable for desks, bedrooms, kitchens, offices, shelves, camping, travel, and personal outdoor cooling. Technical Specifications Product Name: Hoco HX608 Portable Fan Product Type: Portable clip-on desktop fan Mounting Options: Desktop placement, clip attachment, wall mounting Bracket: Integrated flip-out bracket Wall Mounting: Wall mounting hole Oscillation: Automatic rotation supported Fan Blades: 6-inch blades Airflow Levels: 5 levels Rotation Speed: Up to 2000RPM Airflow Speed: 4.5m/s Airflow Noise: 40dB Power: 4.5W Control Buttons: Oscillation, power, airflow level, timer Airflow Level Presets: 20 / 40 / 60 / 80 / 100 Timer Options: 2 / 4 / 6 / 8 hours / cancel timer Display: LED digital display Material: ABS + electronic components Battery Capacity: 3600mAh Charging Input: 5V/2A Charging Port: Type-C Charging Time: Around 4 hours Use Time: 2.5–8 hours Product Size: 169 × 207 × 120mm Product Weight: 680g Recommended Use: Desk cooling, bedroom, office, kitchen, bedside, shelf, travel, camping, indoor and outdoor personal cooling Battery Life Battery Capacity: 3600mAh Use Time: 2.5–8 hours Charging Time: Around 4 hours Charging Input: 5V/2A Charging Port: Type-C Actual battery life may vary depending on airflow level, oscillation use, timer use, battery condition, and environment.
