Description

HOCO L22 Bright 2-in-1 Wireless Microphone with Case The HOCO L22 Bright 2-in-1 Wireless Microphone is designed for customers who want a compact and easy wireless microphone for video recording, live streaming, interviews, vlogging, online content, and daily audio capture. With a small microphone, Type-C receiver, lightweight build, and rechargeable battery, it is practical for creators who need clearer sound without a complicated setup. Its strongest selling point is the simple plug-and-use wireless design. With an omnidirectional electret microphone, Type-C receiver, 5–6 hours of usage time, and compact charging case setup, the HOCO L22 Bright gives users a portable microphone solution for smartphones and compatible Type-C devices. Key Features 2-in-1 wireless microphone with case Omnidirectional electret microphone Type-C audio receiver connector Suitable for video recording, vlogging, interviews, and live streaming Compatible with most Huawei, Xiaomi, OnePlus, and other Type-C devices Supports some Samsung phone models 80mAh microphone battery capacity 5–6 hours usage time 2–3 hours charging time Compact microphone size Lightweight microphone at 12.6g Lightweight receiver at around 3.3g Made from ABS material Portable design for daily content creation Main Feature Sections Wireless Microphone for Content Creation The HOCO L22 Bright is useful for users who record videos, interviews, reels, TikToks, product videos, online classes, or live streams. It helps capture voice more clearly than relying only on the phone’s built-in microphone. Omnidirectional Electret Microphone The omnidirectional electret microphone captures sound from around the microphone, making it practical for speaking, interviews, and casual recording. It is suitable for everyday content and mobile recording needs. Type-C Receiver Connection The included Type-C receiver connects to compatible smartphones and devices, allowing quick wireless audio setup without complicated pairing steps. Compact and Lightweight Design The microphone measures 30 × 30 × 21mm and weighs only 12.6g, making it easy to clip, carry, and use during recording. The receiver is also compact at 32 × 25 × 9mm and around 3.3g. 5–6 Hours Usage Time The 80mAh battery provides around 5–6 hours of use, making the microphone suitable for short videos, interviews, live sessions, and daily recording tasks. Portable Case Design The included case helps keep the microphone and receiver organized and easier to carry. This makes the HOCO L22 Bright practical for creators who record outside, at work, or while traveling. Wide Type-C Phone Compatibility The microphone is compatible with most Huawei, Xiaomi, OnePlus, and other Type-C smartphone brands, and supports some Samsung phone models depending on device compatibility.
