Description

Hoco EW85 ANC Earbuds The Hoco EW85 ANC Earbuds are designed for customers who want affordable wireless earbuds with noise reduction, transparency mode, and practical everyday controls. With Bluetooth 5.4, a JL AC7003 chip, compact charging case, and lightweight ABS construction, they are suitable for music, calls, videos, commuting, and daily use. Their strongest selling point is the combination of active noise reduction features and simple wireless convenience. With up to 4 hours of use, master-slave switching, song control, Siri support, and transparency mode, the Hoco EW85 gives users a flexible listening experience for daily routines. Key Features Wireless ANC earbuds Bluetooth 5.4 JL AC7003 chip Supports noise reduction function Transparency mode supported Master-slave switching support Up and down song switching Siri voice assistant support Charging case with 300mAh battery Earbuds with 30mAh battery capacity Up to 4 hours use time ABS material Total weight 42g Compact charging case design Suitable for music, calls, videos, and daily listening Main Feature Sections Bluetooth 5.4 Connection The Hoco EW85 uses Bluetooth 5.4 with the JL AC7003 chip to support stable wireless connection for daily music, calls, and media playback. Noise Reduction Support The earbuds support noise reduction, helping reduce surrounding distractions during listening. This is useful for commuting, work, study, and everyday environments. Transparency Mode Transparency mode allows users to hear more of their surroundings when needed. This is practical when walking outside, talking to someone, or staying aware of nearby sounds. Master-Slave Switching Master-slave switching allows either earbud to work more flexibly depending on connection and usage. This improves convenience when using one or both earbuds. Music and Voice Control The Hoco EW85 supports up and down song switching and Siri activation, giving users easier control over music and voice assistant features without always reaching for the phone. Compact Charging Case The charging case includes a 300mAh battery, while each earbud has a 30mAh battery. This setup keeps the earbuds ready for daily listening and easy storage. Lightweight ABS Build Made from ABS material with a total weight of 42g, the Hoco EW85 is lightweight enough for daily carry and regular use. Technical Specifications Product Name: Hoco EW85 ANC Earbuds Product Type: Wireless ANC earbuds Bluetooth Version: Bluetooth 5.4 Chip: JL AC7003 Charging Case Battery Capacity: 300mAh Earbud Battery Capacity: 30mAh Use Time: Up to 4 hours Material: ABS Product Size: 50 × 46 × 212mm Total Weight: 42g Noise Reduction: Supported Transparency Mode: Supported Master-Slave Switching: Supported Song Switching: Supported Siri Support: Supported Recommended Use: Music, calls, videos, commuting, daily listening Battery Life Charging Case Battery Capacity: 300mAh Earbud Battery Capacity: 30mAh Use Time: Up to 4 hours Actual battery life may vary depending on volume level, noise reduction use, transparency mode, calls, and connection conditions.
