Product	Philips 7000 Series Food Processor HR7778/01
SKU	cm-HR7778/01
Brand	Philips
Category	Kitchen & Dining
Minimum order quantity	1
Unit	—
Unit price	$450.00
Available quantity	100

Description

Philips 7000 Series Food Processor HR7778/01 The Philips 7000 Series Food Processor HR7778/01 is designed for customers who want one powerful kitchen machine for chopping, slicing, shredding, kneading, whipping, blending, juicing, and preparing everyday recipes faster. With a 1300W motor, large 3.4L bowl, blender jar, PowerChop technology, and multiple accessories, it is built for family cooking, baking, meal prep, desserts, sauces, smoothies, and fresh juices. Its strongest selling point is its complete 4-in-1 food preparation setup. From bread dough and cake batter to whipped cream, sliced vegetables, French fries, smoothies, and citrus juice, the Philips HR7778/01 gives users a high-capacity, time-saving kitchen solution with one-touch auto programs and dishwasher-safe accessories. Key Features 1300W powerful motor Compact 4-in-1 setup 3.4L large-capacity food processor bowl 2L working bowl capacity 2.2L blender jar 1.5L working blender capacity PowerChop technology for superior chopping results Chops, slices, shreds, kneads, whips, blends, juices, and mixes Manual 12-speed control plus pulse 3 one-touch auto buttons for bread dough, whipping, and ice Double metal balloon beater for cream and egg whites Metal kneading hook for bread dough Stainless steel discs for slicing, shredding, granulating, julienne, and French fries XXL 18cm discs for faster food preparation Citrus press included Centrifugal juicer with metal mesh filter Dishwasher-safe accessories Suitable for family-size preparation Can handle up to 7 servings of soup Can process up to 7 egg whites Can knead up to 1.7kg of dough Can prepare up to 5 smoothie portions in one go Main Feature Sections Powerful 1300W Performance The Philips 7000 Series HR7778/01 uses a powerful 1300W motor to handle a wide variety of kitchen tasks. It is suitable for everyday chopping and blending, but also strong enough for heavier tasks such as dough kneading and ice crushing. Compact 4-in-1 Kitchen Setup This food processor combines multiple kitchen functions in one appliance. It can chop, slice, shred, knead, whip, blend, juice, and mix, making it a practical choice for customers who want to reduce the need for multiple separate machines. PowerChop Technology PowerChop technology combines blade shape, cutting angle, and inner bowl design to deliver strong chopping results for both soft and hard ingredients. It is also useful for preparing purées, cake batters, sauces, dips, and mixed recipes. Large 3.4L Food Processor Bowl The extra-large 3.4L bowl has a 2L working capacity, making it suitable for family-size cooking. It can handle up to 7 servings of soup, 7 egg whites, or 1.7kg of dough, depending on the recipe. 2.2L Blender Jar The 2.2L blender jar has a 1.5L working capacity, allowing users to prepare up to 5 smoothie portions in one go. This is useful for smoothies, shakes, soups, and blended recipes. One-Touch Auto Buttons The food processor includes 3 one-touch auto buttons for bread dough, whipping, and ice. These programs automatically set the right speed and pulse pattern for better results without needing manual adjustment every time. 12 Speeds Plus Pulse Control For more control, users can choose from 12 manual speed settings plus pulse. This gives flexibility for different textures, from gentle mixing to fast chopping or blending. Double Metal Balloon Beater The double metal balloon beater is designed for whipping egg whites and cream. Together with the one-touch auto button, it can create fluffy egg whites and perfectly whipped cream for desserts and baking. Metal Kneading Hook The metal kneading hook works with the strong motor to form and knead dough efficiently. It is designed to apply the right force and power for bread dough, making it useful for homemade bread and baking recipes. Stainless Steel Discs The HR7778/01 includes stainless steel discs for different preparation needs. Users can slice, shred, granulate, julienne, and cut French fries, making vegetable preparation faster and more consistent. XXL 18cm Discs The XXL 18cm discs help process ingredients faster, saving time during cooking preparation. This is especially useful when preparing larger quantities for family meals. Citrus Press and Juicer The included citrus press and centrifugal juicer give users more flexibility for fresh drinks. The juicing accessory includes a large feeding tube and metal mesh filter designed for faster juicing and easier cleaning. Dishwasher-Safe Accessories All included accessories are dishwasher safe, making cleanup easier after cooking, baking, blending, or juicing.
