Description

HOCO E91E Smart Tracker with Apple Find My - (Bracelet Type) The HOCO E91E Smart Tracker is designed for Apple users who want a simple way to keep track of important belongings such as bags, keys, backpacks, luggage, and everyday valuables. With Apple Find My support, it connects to Apple’s Find My network to help users locate items through their iPhone or compatible Apple device. Its strongest selling point is the lightweight bracelet-style design. Weighing around 7g, the HOCO E91E can be worn or attached to selected personal items, making it practical for daily use, travel, school bags, pet accessories, and other essentials that users want to keep easier to locate. Key Features Smart anti-lost tracker Works with Apple Find My Bracelet-style design Suitable for bags, keys, backpacks, luggage, pet accessories, and personal items Lightweight design at around 7g Compact and discreet for everyday use Uses Apple Find My network for location support Anti-lost alerts supported Replaceable battery Up to 12 months battery life depending on usage Multi-purpose daily tracking accessory Useful for travel, school, work, and everyday carry Main Feature Sections Works with Apple Find My The HOCO E91E Smart Tracker works with Apple Find My, allowing users to locate their tracker through the Find My app. This makes it a practical accessory for iPhone users who already use Apple’s ecosystem. Smart Anti-Lost Support The tracker helps users keep track of important items and receive alerts when an item moves out of range, depending on Find My settings and device conditions. This can help reduce the chance of forgetting or misplacing valuables. Bracelet-Style Design The bracelet-style design gives the HOCO E91E more flexibility than a standard flat tracker. It can be worn or attached to selected items, making it useful for bags, backpacks, luggage, pet accessories, and daily essentials. Lightweight Everyday Carry At around 7g, the tracker is lightweight and discreet enough for daily use. It is suitable for customers who want item tracking without adding heavy or bulky accessories. Apple Find My Network Support When the tracker is farther away, Apple’s Find My network can help update its location using nearby Apple devices. This is useful for travel, public places, school, work, and daily movement. Long Battery Life The HOCO E91E uses a replaceable battery and can last up to 12 months depending on usage. This makes it a low-maintenance tracking accessory for everyday use. Multi-Purpose Use The tracker can be used with keys, bags, backpacks, luggage, pet accessories, and other valuables. It is a practical option for customers who want one device for different daily tracking needs. Technical Specifications Product Name: HOCO E91E Smart Tracker Full Model Name: E91E Tiger Smart Anti-Lost Device Product Type: Smart anti-lost tracker Design Type: Bracelet-style tracker Network Support: Apple Find My Compatible App: Apple Find My app Tracking Support: Apple Find My network Anti-Lost Alerts: Supported Weight: Around 7g Battery Type: Replaceable battery Battery Life: Up to 12 months depending on usage Recommended Use: Bags, keys, backpacks, luggage, pet accessories, and personal items Best For: Apple / iPhone users Battery Life Battery Type: Replaceable battery Battery Life: Up to 12 months Battery life may vary depending on usage, alert frequency, connection conditions, and environment. Bluetooth Version Not specified in the provided information. Important Compatibility Note The HOCO E91E Smart Tracker works with Apple Find My and is best suited for iPhone and Apple device users. Android compatibility is not specified in the provided information. Important Expectation Management Apple Find My location updates depend on Bluetooth range, nearby Apple devices, network availability, and Find My app conditions. This product should not be described as a live GPS tracker. When used with children or pets, it should be considered an extra tracking aid, not a replacement for direct supervision or dedicated safety tracking devices.
