Product specification sheet

Product	Huawei Watch Fit 5 Pro (Orange)
SKU	cm-NKI-B29-OR
Brand	Huawei
Category	Smart Electronics
Minimum order quantity	1
Unit	—
Unit price	$235.00
Available quantity	100

Description

Huawei Watch Fit 5 Pro The Huawei Watch Fit 5 Pro is designed for customers who want a premium lightweight smartwatch with a larger display, advanced outdoor tracking, deeper health insights, and a more durable build. With a 1.92-inch AMOLED display, 2.5D sapphire glass, titanium alloy bezel, 3000 nits peak brightness, and 5 ATM + IP6X protection, it is made for active users who want style and performance in one watch Its strongest selling point is the Pro-level mix of outdoor sports, health management, and premium materials Features 1.92-inch flexible AMOLED display Adaptive 1–60Hz LTPO refresh rate 3000 nits peak brightness 2.5D sapphire glass cover 83% screen-to-body ratio Razor-thin 1.8mm bezels on all sides Titanium alloy bezel Aluminum alloy mid-frame Lightweight 30.4g body without strap 9.5mm slim body excluding sensor area 100+ workout modes Mini-workout mode with animated guidance 10 body parts tracked in mini-workout mode 30 animated mini-workout movements Trail running support with route navigation and off-course alerts Golf course maps with 17,000+ courses Freediving support up to 40m Cycling data with virtual power and virtual cadence Ball sport app support through compatible third-party apps HUAWEI TruSense health system ECG sensor and ECG analysis support Pulse Wave Arrhythmia Analysis Heart rate, SpO2, emotion, and sleep tracking TruSleep 5.0 sleep analysis Women’s health tracking Health Insights Diabetes risk study support where available 64GB storage for watch faces, music, maps, and apps NFC supported Bluetooth 6.0 with BR + BLE support Speaker and microphone supported Dual-band GNSS support 5 ATM water resistance IP6X dust resistance Wireless charging Up to 10 days battery life with light usage Up to 7 days battery life with typical usage Up to 4 days battery life with AOD enabled Compatible with Android 9.0 or later and iOS 13.0 or later Premium Pro Design The Huawei Watch Fit 5 Pro combines a titanium alloy bezel with an aluminum alloy mid-frame for a more premium and durable feel. The slim 9.5mm profile and 30.4g body without strap keep it comfortable for daily wear, workouts, and outdoor activities. Large 1.92-Inch AMOLED Display The 1.92-inch AMOLED display features 480 × 408 resolution, 328 PPI, adaptive 1–60Hz LTPO refresh rate, and up to 3000 nits peak brightness. This gives users a smooth, bright, and easy-to-read screen, especially outdoors. Sapphire Glass Protection The display is protected by 2.5D artificial sapphire glass, adding a more premium layer of durability for daily use and outdoor activities. Immersive Thin-Bezel Screen With razor-thin 1.8mm bezels and an 83% screen-to-body ratio, the Watch Fit 5 Pro gives users a larger, more immersive viewing area while keeping the body compact on the wrist. Outdoor-Ready Sports Tracking The Watch Fit 5 Pro is built for outdoor users, with trail running, cycling, golf, running, swimming, and freediving support. It is suitable for users who want more detailed activity tracking than a basic smartwatch. Trail Running Support Trail runners can use route navigation, map zooming, split elevation, grade data, off-course alerts, estimated remaining time, and estimated distance. The watch can also support up to 25 hours in Trail Run mode based on the provided feature text. Golf Course Features The watch supports over 17,000 golf courses with smooth, zoomable maps. It can show fairways, greens, hazards, customizable flagstick position, green slope view, and live scorecard support where available. Freediving up to 40m The Huawei Watch Fit 5 Pro supports freediving up to 40m and includes a depth sensor. It can be used for supported free diving activities, but it should not be used for scuba diving, technical diving, or dives deeper than 40m. Mini-Workout Mode Mini-workout mode helps users turn short free moments into guided movement sessions. It tracks 10 body parts and includes 30 animated movements with step-by-step guidance, making it useful for stretching and quick daily activity. Panda Mini-Workout Watch Face The mini-workout watch face includes an animated panda that encourages movement, demonstrates exercises, reacts to activity, and lets users unlock city landmarks as they move more. 100+ Workout Modes The watch supports more than 100 workout modes, including running, yoga, strength training, swimming, sailing, boating, and more. It is a strong fit for users who switch between different sports and daily fitness activities. Cycling Performance Insights For cyclists, the Watch Fit 5 Pro can track grade, virtual power, virtual cadence, pedaling or pause states, and route data. It can also pair with an external power meter for FTP tracking where supported. Ball Sports and Third-Party Apps The watch supports third-party sports apps such as Tennix, Goodshot, PickleX, Memo Football, SpaceY Moonshot, and KeepStrong. These can provide deeper statistics for sports like tennis, badminton, pickleball, and football where supported. HUAWEI TruSense Health Tracking The advanced HUAWEI TruSense system helps track heart rate, SpO2, emotion, and sleep with faster and more comprehensive readings.

These features are intended for wellness tracking and should not be treated as medical diagnosis. ECG Analysis The Pro model includes an ECG sensor. Users can hold the side electrode for 30 seconds to generate an ECG report on the watch where the feature is supported. Pulse Wave Arrhythmia Analysis Pulse Wave Arrhythmia Analysis supports A-fib alerts using the PPG sensor. Availability and accuracy may vary by region, regulations, and device settings. TruSleep 5.0 Sleep Insights HUAWEI TruSleep 5.0 analyses sleep architecture and stability, including deep, light, and REM sleep stages. It can also provide insights into sleep breathing and heart rate patterns for a clearer view of sleep quality. Emotional Wellbeing and Women’s Health The Emotional Wellbeing app can show 12 emotion states, while women’s health tracking can help estimate period, ovulation day, and cycle using temperature sensor and vital sign data. Health Insights and Diabetes Risk Study Health Insights turns data such as heart health, stress, exercise, and sleep score into personalized suggestions. The diabetes risk study feature can assess risk based on several days of vital sign tracking where available. 64GB Storage With 64GB storage, users can download watch faces, music, maps, and apps. This gives the Watch Fit 5 Pro more flexibility for personalization, workouts, and smart tools. Smart Daily Tools The watch includes tools such as recorder, weather, music, barometer, calculator, remote shutter, wallet, calendar, alarm, timer, stopwatch, flashlight, compass, and phone features. Availability may vary depending on phone system, region, and app support. Broad Compatibility The Huawei Watch Fit 5 Pro supports Android 9.0 or later and iOS 13.0 or later. Users can sync notifications, data, and health features through Huawei Health. Long Battery Life The battery can last up to 10 days with light usage, up to 7 days with typical usage, and up to 4 days with Always-On Display enabled. Actual battery life depends on usage habits, enabled features, and environment. Wireless Charging The watch supports wireless charging and requires a 5V–10V DC / 2A charging input. The box includes a charging cradle with charging cable. Technical Specifications Product Name: Huawei Watch Fit 5 Pro Dimensions: 44.5 × 40.8 × 9.5mm Thickness Note: 9.5mm excludes the sensor area Weight: Approximately 30.4g without strap Wrist Size: 130–210mm Display Type: AMOLED Display Size: 1.92 inches Display Resolution: 480 × 408 pixels Pixel Density: 328 PPI Refresh Rate: Adaptive 1–60Hz LTPO Peak Brightness: Up to 3000 nits Screen-to-Body Ratio: 83% Bezel Width: 1.8mm on all sides Cover Glass: 2.5D artificial sapphire glass Watch Case Mid-Frame Material: Aluminum alloy Watch Case Bezel Material: Titanium alloy Button: Home button with rotating crown and side button Charging Port: Wireless charging System Requirements: Android 9.0 or later, iOS 13.0 or later Water Resistance: 5 ATM Dust Resistance: IP6X Diving Support: Freediving up to 40m NFC: Supported Bluetooth: 2.4GHz, supports BT6.0 and BR + BLE GNSS: GPS L1 + L5 dual-band, GLONASS, BeiDou B1I + B1C + B2a tri-band, Galileo E1 + E5a dual-band, QZSS L1 + L5 dual-band, NavIC Speaker: Supported Microphone: Supported Operating Temperature: -20°C to +45°C Charger Voltage and Current Requirements: 5V–10V DC / 2A Storage: 64GB Sensors Accelerometer sensor Gyroscope sensor Magnetometer sensor Optical heart rate sensor Barometer sensor Temperature sensor Ambient light sensor ECG sensor Depth sensor Watch Strap Gradient Orange Nylon Strap White Fluoroelastomer Strap Black Fluoroelastomer Strap Battery Life Light Usage: Up to 10 days Typical Usage: Up to 7 days Always-On Display Enabled: Up to 4 days Trail Run Mode: Up to 25 hours based on provided feature text Charging Method: Wireless charging Charger Requirement: 5V–10V DC / 2A Battery life may vary depending on usage habits, enabled features, and environmental conditions. Waterproof / Water Resistance Water Resistance Grade: 5 ATM Dust Resistance: IP6X Freediving Support: Up to 40m Suitable for shallow water activities such as swimming in a pool or along the coast Suitable for supported freediving activities up to 40m Not suitable for scuba diving, technical diving, diving deeper than 40m, hot showers, hot springs, saunas, steam rooms, or exposure to cleaning products Nylon straps are not recommended for water activities or heavy sweat use Water resistance is not permanent and may reduce over time with daily wear Bluetooth Version Bluetooth 6.0 BR + BLE supported What's in the Box Huawei Watch Fit 5 Pro x 1 Charging Cradle with Charging Cable x 1 Quick Start Guide and Safety Information x 1
