Description

Huawei Watch Fit 5 The Huawei Watch Fit 5 is designed for customers who want a lightweight, stylish smartwatch for everyday wear, fitness tracking, health monitoring, and smart connectivity. With a 1.82-inch AMOLED HD display, slim 9.5mm body, and featherlight 27g design without the strap, it feels comfortable on the wrist while keeping daily information easy to read. Its strongest selling point is the balance between premium screen quality, advanced fitness features, and long battery life. With 100+ workout modes, mini-workout guidance, 24/7 health tracking, dual-band GPS support, 5 ATM water resistance, IP6X dust resistance, iOS and Android compatibility, and up to 10 days of light-use battery life, the Huawei Watch Fit 5 is a practical smartwatch for active daily life Key Features Lightweight design at approximately 27g without strap Ultra-slim 9.5mm watch body excluding sensor area 1.82-inch AMOLED display 480 × 408 resolution with 347 PPI Peak brightness up to 2500 nits Aluminum alloy watch case Compatible with Android 9.0 or later and iOS 13.0 or later 100+ workout modes Mini-workout mode with animated movement guidance 10 body parts tracked in mini-workout mode 30 animated mini-workout movements Huawei Sunflower Positioning System for outdoor running GNSS support with GPS, GLONASS, BeiDou, Galileo, QZSS, and NavIC Heart rate tracking with optical heart rate sensor SpO2 tracking TruSleep 5.0 sleep tracking Pulse Wave Arrhythmia Analysis Emotional wellbeing tracking Women’s health tracking Health Insights Active Rings for movement, exercise, and standing goals Bluetooth 6.0 with BR + BLE support Speaker and microphone supported Wireless charging Up to 10 days battery life in light usage Up to 7 days battery life in typical usage Up to 4 days battery life with AOD enabled 5 ATM water resistance IP6X dust resistance Home button with rotating crown and side button Smart tools including recorder, weather, music, barometer, calculator, remote shutter, wallet, calendar, alarm, timer, stopwatch, flashlight, compass, and phone features NFC supported on the Silver edition only Main Feature Sections Lightweight Everyday Design The Huawei Watch Fit 5 is built for everyday comfort with an approximately 27g body without the strap and a slim 9.5mm profile excluding the sensor area. It is designed to feel light on the wrist, making it suitable for work, workouts, sleep tracking, and daily wear. Large AMOLED HD Display The 1.82-inch AMOLED display offers a 480 × 408 resolution, 347 PPI, and up to 2500 nits peak brightness. This helps keep the screen clear outdoors and easier to read in bright sunlight, while the slim design gives the watch a modern look. Aluminum Alloy Case The aluminum alloy watch case gives the Huawei Watch Fit 5 a lightweight but refined feel. It is suitable for users who want a smartwatch that looks clean and stylish without feeling heavy during long wear. Mini-Workout Mode Mini-workout mode helps users turn short moments during the day into guided movement sessions. It tracks 10 body parts, including the head, neck, and shoulders, and includes 30 animated movements with step-by-step guidance. Fun Panda Workout Watch Face The exclusive mini-workout watch face features an animated panda that encourages users to stretch, twist, and move during the day. The panda demonstrates movements, reacts to activity, and helps make light exercise feel more engaging. 100+ Workout Modes The Huawei Watch Fit 5 supports more than 100 workout modes, covering daily fitness, running, cycling, yoga, strength training, swimming, sailing, boating, and more. This makes it practical for users with different activity levels and training styles. Running and Positioning Support With Huawei Sunflower Positioning System and support for multiple satellite systems, the watch helps track outdoor running routes and performance. It can monitor pace, heart rate, running power, and other key workout data to support smarter training. Advanced GNSS Support The watch supports GPS L1 + L5 dual-band, GLONASS, BeiDou B1I + B1C + B2a tri-band, Galileo E1 + E5a dual-band, QZSS L1 + L5 dual-band, and NavIC. This helps improve outdoor positioning accuracy depending on environment and signal conditions. Cycling Performance Tracking For cyclists, the watch can track real-time cycling data such as grade, virtual power, and virtual cadence. It can also auto-detect when you pedal or pause, helping maintain cleaner workout records during rides. Ball Sport Support The watch supports compatible third-party ball sport apps such as Tennix, Goodshot, PickleX, and Memo Football. These can provide deeper stats for sports such as tennis, badminton, pickleball, and football depending on app support. Advanced Health Monitoring The Huawei Watch Fit 5 includes an optical heart rate sensor and supports daily wellness tracking such as heart rate, SpO2, sleep, stress, emotional wellbeing, and women’s health features. These features are designed for wellness guidance and should not be treated as medical diagnosis. TruSleep 5.0 Sleep Tracking Huawei TruSleep 5.0 provides deeper sleep insights by tracking

sleep stages, REM sleep, sleep stability, breathing, heart rate, and sleep quality. This helps users review their sleep patterns and adjust habits over time. Health Insights Health Insights turns data such as heart health, stress, exercise duration, and sleep score into personalized suggestions. This gives users a clearer view of their daily health trends through the Huawei Health app. Smart Connectivity The Huawei Watch Fit 5 works with both iOS and Android devices, allowing users to receive notifications, sync data, and stay connected through the Huawei Health app. System support starts from Android 9.0 or later and iOS 13.0 or later. Bluetooth 6.0 Support The watch supports 2.4GHz Bluetooth with BT6.0, BR, and BLE. This supports connection with compatible smartphones and smart features such as notifications, phone-related functions, and app syncing. Speaker and Microphone The Huawei Watch Fit 5 supports both speaker and microphone, helping enable calling and voice-related features where available and supported by the connected phone and region. Daily Smart Tools The watch includes practical tools such as recorder, weather, music, barometer, calculator, remote shutter, wallet, calendar, alarm, timer, stopwatch, flashlight, compass, and phone features. Feature availability may vary depending on phone system, region, and edition. NFC on Silver Edition NFC is supported on the Silver edition only based on the provided specifications. Customers should check the exact color edition before expecting NFC support. 5 ATM and IP6X Protection The watch is rated 5 ATM water-resistant and IP6X dust-resistant. It can be worn during shallow water activities such as pool swimming or swimming along the coast, but it should not be used for diving, hot showers, saunas, hot springs, or exposure to cleaning products. Comfortable Strap Options The Huawei Watch Fit 5 is available with different strap options including Green-Grey nylon, Purple fluoroelastomer, Green fluoroelastomer, White fluoroelastomer, and Black fluoroelastomer. Nylon straps are not recommended for water activities or heavy sweat use. Long Battery Life The Huawei Watch Fit 5 offers up to 10 days of battery life in light usage, up to 7 days in typical usage, and up to 4 days with Always-On Display enabled. Actual battery life depends on usage habits, settings, and environment. Wireless Charging The watch uses wireless charging and requires a charger output of 5V–10V DC / 2A. The box includes a charging cradle with charging cable. Personalized Watch Faces Users can customize the watch with stickers, videos, pets, Cute Companions, and different watch face styles. This makes the device feel more personal and easier to match with daily outfits.
