## Description

Xiaomi Vacuum Cleaner G20 Lite The Xiaomi Vacuum Cleaner G20 Lite is designed for customers who want a lightweight cordless vacuum for everyday home cleaning. With powerful cyclone suction, dust detection lighting, multiple brush heads, and wall-mounted storage, it is practical for hard floors, tiles, floor mats, short-pile carpets, sofa gaps, corners, ceilings, curtains, and furniture. Its strongest selling point is the balance between cleaning power and daily convenience. With up to 18,000Pa suction power, five-stage filtration, white light dust detection, one-touch dust disposal, and up to 45 minutes of battery life depending on the attachment used, it gives users a cleaner and easier way to maintain the home without a cable. Key Features Cordless vacuum cleaner for home cleaning Up to 18,000Pa maximum suction power Built-in high-speed brushless motor Powerful cyclone suction White light dust detection technology Front-mounted LED headlights to reveal hidden dust Five-stage deep filtration system Locks in 99.9% of particles as small as 0.3μm based on test data Built-in 2200mAh battery Up to 45 minutes battery life with 2-in-1 brush nozzle in standard mode Up to 40 minutes battery life with electric brush bar in standard mode One-touch dust disposal Approx. 0.55L dust container volume Electric brush bar for multiple floor surfaces Extension rod for high areas 2-in-1 brush nozzle for narrow spaces and furniture Wall storage mount included Power indicator light Main Feature Sections 18,000Pa Cyclone Suction The Xiaomi Vacuum Cleaner G20 Lite uses a high-speed brushless motor to deliver up to 18,000Pa maximum suction power. This helps remove dust, dirt, and small particles from everyday surfaces, including hard floors, tiles, floor mats, and short-pile carpets. White Light Dust Detection The front-mounted LED headlights help reveal hidden dust in dark corners, under furniture, and inside dim crevices. This makes it easier to see where cleaning is needed and helps users clean more thoroughly. Five-Stage Deep Filtration The five-stage filtration system is designed to lock in 99.9% of particulate matter as small as 0.3μm based on test data. This helps reduce secondary pollution by keeping collected dust inside the vacuum instead of releasing it back into the room. Electric Brush Bar for Floor Cleaning The electric brush bar is designed for efficient one-step cleaning across different floor surfaces. It can be used on hard floors, tiles, floor mats, and short-pile carpets without needing to change the brush head. 2-in-1 Brush Nozzle for Detail Cleaning The 2-in-1 brush nozzle helps clean narrow spaces such as sofa gaps, window crevices, corners, and furniture surfaces. It is useful for detail cleaning where the main brush head cannot reach easily. Extension Rod for High Areas The extension rod helps users clean higher areas such as ceilings, curtain tops, high corners, and air conditioner surfaces. The lightweight cordless design makes it easier to reach these areas without dragging a large vacuum. One-Touch Dust Disposal The dust container opens with the press of a button, making dust disposal quicker and more convenient. The approx. 0.55L dust container gives enough capacity for daily cleaning before emptying. Long Battery Support The built-in 2200mAh battery supports everyday cleaning sessions, with up to 40 minutes of runtime using the electric brush bar in standard mode and up to 45 minutes using the 2-in-1 brush nozzle in standard mode. Compact Wall-Mounted Storage The included wall storage mount helps keep the vacuum organized and ready for the next cleaning session without taking up much floor space. Technical Specifications Product Name: Xiaomi Vacuum Cleaner G20 Lite Certification Name: Cordless vacuum cleaner Model: C203 Product Type: Cordless vacuum cleaner Motor Type: High-speed brushless motor Suction Technology: Cyclone suction Maximum Suction Power: Up to 18,000Pa Rated Voltage: 22.2V Rated Power: 215W Charging Voltage: 27.0V Battery Capacity: 2200mAh nominal battery capacity Dust Detection: White light dust detection technology Lighting: Front-mounted LED headlights Filtration System: Five-stage deep filtration Filtration Performance: Locks in 99.9% of particulate matter as small as 0.3μm based on test data Dust Container Volume: Approx. 0.55L Net Weight: 2.4kg Product Dimensions: 340 × 114 × 217mm Dust Disposal: One-touch dust disposal Storage: Wall storage mount Power Display: Power indicator light Brush Head Types: Electric brush bar, 2-in-1 brush nozzle Recommended Use with Electric Brush Bar: Hard floors, tiles, floor mats, short-pile carpets Recommended Use with 2-in-1 Brush Nozzle: Sofa gaps, corners, ceilings, curtains, furniture, and narrow spaces Operating Time with Electric Brush Bar: Turbo mode up to 15 minutes, standard mode up to 40 minutes Operating Time with 2-in-1 Brush Nozzle: Turbo mode up to 15 minutes, standard mode up to 45 minutes Battery Life Battery Capacity: 2200mAh Electric Brush Bar Standard Mode: Up to 40 minutes Electric Brush Bar Turbo Mode: Up to 15 minutes 2-in-1 Brush Nozzle Standard Mode: Up to 45 minutes 2-in-1 Brush Nozzle Turbo Mode: Up
