Description

Haier 50" QLED 4K Google TV 120Hz H50S80GUX The Haier 50" QLED 4K Google TV H50S80GUX is designed for users who want a strong everyday smart TV with better color, smoother motion, and gaming-ready features in a practical screen size. Its strongest selling point is not only the 50-inch size. The real value is the combination of QLED color, 120Hz refresh rate, HDMI 2.1, VRR, ALLM, Google TV, Chromecast, and Dolby Audio. This makes it a strong choice for movies, sports, gaming, YouTube, Netflix, and daily home entertainment Key Features 50-inch QLED 4K display 3840 × 2160 Ultra HD resolution 120Hz refresh rate MEMC motion smoothing Quantum Dot technology with over 1 billion colors HDMI 2.1 support VRR and ALLM for gaming Google TV operating system Built-in streaming apps Voice control support Chromecast built-in Dolby Audio sound system Bezel-less design Wi-Fi and Bluetooth connectivity 2GB RAM + 32GB storage Display Performance 50-Inch 4K QLED Screen The 50-inch size is practical for living rooms, bedrooms, gaming rooms, and medium-sized spaces where users want a big-screen feel without going too large. Quantum Dot Color QLED technology helps deliver richer, more vibrant colors with over 1 billion color shades, making movies, sports, and games look more immersive than standard LED TVs. 4K Ultra HD Resolution The 3840 × 2160 resolution provides sharper detail for compatible 4K streaming, gaming, movies, and YouTube content. Motion & Sports Viewing 120Hz Refresh Rate The 120Hz refresh rate helps deliver smoother motion for sports, action movies, racing, and fast gameplay. MEMC Technology MEMC improves motion clarity by reducing blur and judder in fast-moving scenes. Gaming Performance HDMI 2.1 Support HDMI 2.1 makes the TV more suitable for modern gaming consoles and high-performance devices. VRR and ALLM VRR helps reduce screen tearing, while ALLM automatically switches to a lower-latency mode for more responsive gameplay. Real Buyer Benefit This makes the TV more appealing for PlayStation, Xbox, and PC gamers who want smoother motion and faster response. Smart TV Experience Google TV Google TV brings apps, recommendations, movies, shows, and content discovery into one simple interface. Chromecast Built-In Chromecast lets users cast videos, music, and content from compatible phones, tablets, and laptops directly to the TV. Voice Control Voice control makes it easier to search for content, open apps, and manage supported smart features. Audio Experience Dolby Audio Dolby Audio improves sound clarity and entertainment impact compared to basic TV sound systems. Expectation Check For deeper bass and a more cinematic experience, a soundbar is still recommended, especially in larger rooms. Design Bezel-Less Design The slim bezel-less look creates a more immersive viewing experience and gives the TV a cleaner modern appearance.
