Description

Magnetic Quick-Release Base Mount for Insta360 Ace / Ace Pro / Ace Pro 2 / X5 The Magnetic Quick-Release Base Mount is designed for Insta360 users who want a faster and more practical way to attach or remove their camera from compatible mounts. It is suitable for creators, vloggers, riders, and action camera users who need quick setup changes without wasting time during shooting. Its strongest value is the combination of a magnetic quick-release design with a durable aluminum alloy body. The lightweight 25g construction makes it easy to carry, while the two-claw adapter design helps support action camera mounting setups for flexible shooting angles. Key Features Magnetic quick-release base mount Designed for Insta360 Ace, Ace Pro, Ace Pro 2, and X5 Two-claw adapter design Aluminum alloy construction Lightweight 25g body Durable build for action camera use
