Product specification sheet

Product	Mcdodo CA-1830 Lightning Cable
SKU	cm-CA-1830
Brand	Mcdodo
Category	Accessories
Minimum order quantity	1
Unit	—
Unit price	$6.00
Available quantity	100

Description

Mcdodo CA-1830 Lightning Cable 36W 3A 0.2m Black The Mcdodo CA-1830 Lightning Cable is made for Apple users who need a short, practical charging cable for daily use, power banks, car chargers, desk setups, or compact travel charging. With a 0.2m length, it is ideal when you want less cable clutter and a cleaner setup. Its strongest value is fast and controlled charging in a compact design. With support for up to 36W power, 3A current, and Mcdodo MSC technology, it helps deliver safe and efficient charging by matching the right amount of power to the connected device. Key Features Lightning cable for compatible Apple devices Supports up to 36W charging Supports up to 3A current Power Delivery support listed by supplier Mcdodo MSC technology for smart power matching Short 0.2m cable length for compact use Dirt-repellent silicone casing Easy-to-clean outer material Copper core protected inside the cable Black color Main Feature Sections Compact 0.2m Cable Design The short 0.2m length makes this cable ideal for power banks, car charging, desktop charging stations, and travel setups. It helps reduce cable mess when your charger and device are close together. Fast Charging Support The Mcdodo CA-1830 supports up to 36W power and 3A current, allowing fast and efficient charging when used with a compatible charger and device. Actual charging speed depends on the connected device and power adapter. Smart Power Matching Mcdodo MSC technology helps match the proper power level to the connected device. This supports safer charging and helps reduce the risk of unnecessary battery stress during everyday use. Durable Silicone Casing The dirt-repellent silicone casing protects the internal copper core while keeping the cable easy to wipe clean. This makes it practical for daily use in bags, cars, desks, and work setups. Made for Apple Device Charging The Lightning connector is suitable for compatible Apple devices that use a Lightning charging port. For best results, use it with a compatible power adapter that matches the cable and device requirements.
