Product	Philips XC5041/61 Cordless Vacuum Aqua
SKU	cm-XC5041/61
Brand	Philips
Category	Home Appliances
Minimum order quantity	1
Unit	—
Unit price	$533.00
Available quantity	100

Description

Philips 5000 Series Cordless Vacuum Aqua XC5041/61 The Philips 5000 Series Cordless Vacuum Aqua XC5041/61 is made for customers who want one flexible cleaning solution for daily dust, dirt, hair, and quick wet touch-ups. Designed for both hard floors and soft floors, it combines cordless convenience with strong suction, LED floor guidance, and an attachable Aqua Module for more complete everyday cleaning. Its strongest value is the combination of vacuuming and light mopping in one device. With PowerCyclone 10, a PowerBlade digital motor, up to 60 minutes of runtime in Eco mode, and a TriActive Multi LED nozzle, it helps make home cleaning faster, easier, and more practical for busy households Key Features Cordless vacuum cleaner for hard floors and soft floors PowerCyclone 10 technology for powerful, efficient suction PowerBlade digital motor with airflow speed up to 840 L/min TriActive Multi LED nozzle reveals fine dust while cleaning Cleans up to 99.9% of dust and dirt in a single stroke based on manufacturer testing Up to 60 minutes runtime in Eco mode Up to 15 minutes runtime in Turbo mode Covers more than 195 m² in Eco mode and more than 70 m² in Turbo mode per charge Includes Aqua Module for quick wet touch-ups while vacuuming 3 cleaning settings with intuitive display Replaceable battery design Wall mount for storage and charging Long crevice tool for narrow spaces 2-in-1 combination tool with soft brush and wide crevice function 3-stage filtration system keeps up to 98.5% of fine dust and dirt sealed inside Main Feature Sections Powerful Cordless Cleaning The Philips 5000 Series uses PowerCyclone 10 technology together with a PowerBlade digital motor to create strong airflow while using battery power efficiently. This helps the vacuum pick up dust and dirt thoroughly across different floor types without being limited by a cable. TriActive Multi LED Nozzle The TriActive Multi LED nozzle is designed for all floor types and uses LED lights to reveal fine dust particles that are easy to miss. It also helps collect small dust, coarse dirt, and hair, while cleaning up to 3 mm close to edges and corners. Vacuum and Mop in One Go The included Aqua Module attaches easily to the vacuum for quick wet touch-ups while cleaning. It uses a damp microfiber cloth to help remove a variety of stains, making it useful for everyday home maintenance on suitable hard floors. Three Cleaning Settings with Display The vacuum includes 3 cleaning settings, allowing you to adjust the power depending on the surface and cleaning need. The intuitive display shows battery status and the selected power mode at a glance, helping you manage your cleaning session more clearly. Replaceable Battery Convenience The replaceable battery design gives more flexibility for larger homes. The vacuum can run up to 60 minutes in Eco mode or up to 15 minutes in Turbo mode, and users can continue cleaning almost immediately with an extra compatible battery if purchased separately. Practical Accessories for Daily Cleaning The long crevice tool helps reach narrow spaces, while the 2-in-1 combination tool can switch between a soft brush for delicate surfaces and a wide crevice tool for corners and tighter areas. Wall Mount Storage and Charging After use, the vacuum and accessories can be stored neatly on the wall mount, where the device charges automatically. The vacuum can also be charged separately if the wall mount is not preferred. 3-Stage Filtration System The 3-stage filtration system helps keep dust securely stored inside the vacuum. According to Philips testing, up to 98.5% of fine dust and dirt remains sealed inside, helping keep cleaned surfaces cleaner after vacuuming.
