Description

Philips Open Wireless Stereo Bluetooth Earphone 2769 The Philips Open Wireless Stereo Bluetooth Earphone 2769 is designed for users who want lightweight wireless listening with an open-ear style, smart touch controls, Bluetooth 5.4, and simple daily calling and music control. Its strongest selling point is not only the wireless design. The real value is the combination of Bluetooth 5.4, open-ear comfort, smart touch control, up to 6 hours earbud autonomy, Type-C charging, and everyday functions for music, calls, and voice assistant access. Key Features Open wireless stereo Bluetooth earphones Bluetooth 5.4 connection Open-ear style design 8mm speaker driver 20Hz–20kHz frequency response Up to 6 hours individual ear autonomy 50mAh headphone battery 250mAh charging compartment 1-hour charging time Type-C charging interface Approx. 15m transmission distance Smart touch controls Music control support Call answer, reject, and hang-up functions Voice assistant support Lightweight ABS material Black color design Open Wireless Listening Open-Ear Style Comfort The open-style design is suitable for users who prefer not to fully block the ear canal during daily listening. Real Buyer Benefit This makes the earphones practical for casual music, calls, podcasts, office use, walking, and daily movement where comfort and awareness matter. Bluetooth Connectivity Bluetooth 5.4 Bluetooth 5.4 supports a modern wireless connection for music, calls, and everyday use. Approx. 15m Transmission Distance The earphones support a transmission distance of approximately 15 meters, depending on environment, obstacles, and connected device. Sound Performance 8mm Speaker Driver The 8mm speaker driver delivers everyday audio performance for music, calls, videos, and podcasts. 20Hz–20kHz Frequency Response The listed frequency response covers the standard hearing range, supporting general music and voice playback. Battery Life Individual Ear Autonomy Each earphone supports up to 6 hours of autonomy based on the provided specifications. Charging Compartment The charging compartment includes a 250mAh battery for recharging the earphones. Fast Daily Charging The earphones support around 1 hour charging time through the Type-C charging interface. Controls & Functions Smart Touch Control Smart touch controls allow users to manage key functions directly from the earphones. Supported functions include: Change songs Play and pause Answer calls Hang up calls Reject calls Activate voice assistant Technical Specifications Brand Philips Model 2769 Product Type Open wireless stereo Bluetooth earphone Material ABS Color Black Bluetooth Version Bluetooth 5.4 Headphone Battery 50mAh Charging Compartment Battery 250mAh Charging Time Approx. 1 hour Individual Ear Autonomy Up to 6 hours Charging Interface Type-C Nominal Input 5V Speaker Size 8mm Frequency Response 20Hz–20kHz Transmission Distance Approx. 15m Control Mode Smart touch Functions Music control, call control, play/pause, voice assistant
