Description

Philips TAT2020WT True Wireless Earbuds The Philips TAT2020WT True Wireless Earbuds are designed for users who want small, comfortable earbuds with natural sound, dynamic bass, clear calls, stable Bluetooth, and a pocket-sized charging case for everyday listening. Its strongest selling point is not only the affordable true wireless design. The real value is the combination of 13mm drivers, Dynamic Bass, Philips warm sound signature, 2-mic call technology, Bluetooth 5.4, customizable touch controls, and up to 20 hours total playtime. Key Features True wireless earbuds Philips warm, natural sound signature 13mm dynamic drivers Dynamic Bass support Great sound even at low volume 2-mic technology for clearer calls Noise-reduction algorithm for calls Bluetooth 5.4 Stable wireless connection Easy pairing Up to 5 hours playtime from earbuds Up to 20 hours total playtime with case Extra 15 hours from charging case Full earbud recharge in around 1.5 hours Mono mode support USB-C charging case Comfortable in-ear fit Interchangeable silicone ear tips Customizable on-ear touch controls Philips Headphones app support Sound Performance 13mm Dynamic Drivers The Philips TAT2020WT uses large 13mm drivers to deliver warm, natural sound with deep bass for music, podcasts, videos, and everyday listening. Philips Sound Signature The earbuds are tuned with the Philips sound signature, giving users a balanced sound profile with smooth vocals and enjoyable bass. Dynamic Bass Stronger Bass at Lower Volume Dynamic Bass helps users enjoy fuller basslines without needing to turn the volume too high. Easy Activation Dynamic Bass can be activated through the earbud controls or the Philips Headphones app. Real Buyer Benefit This is useful for users who want stronger bass while listening quietly at work, in public, or during long sessions. Call Quality 2-Mic Technology The two-mic setup helps pick up the user’s voice more clearly during calls. Noise-Reduction Algorithm The noise-reduction algorithm helps quieten background noise, making calls clearer in everyday places such as cafés, streets, offices, and public spaces. Connectivity Bluetooth 5.4 Bluetooth 5.4 provides a more stable wireless connection for smoother streaming and fewer sound interruptions. Easy Pairing The earbuds are designed for simple pairing and quick daily use. Battery Life Earbud Playback The earbuds provide up to 5 hours of playtime from a full charge. Total Playtime The charging case adds up to 15 extra hours, giving up to 20 hours total playtime. Charging Time The earbuds fully recharge in the case in around 1.5 hours. Mono Mode Mono mode allows users to use either earbud while the other one charges. Comfort & Controls Comfortable In-Ear Fit The earbuds sit gently but securely in the ear canal for daily comfort. Interchangeable Silicone Ear Tips The included silicone ear tips help users find a better fit for comfort, stability, and sound quality. Customizable Touch Controls On-ear touch controls make it easy to manage music, calls, and settings, with customization available through supported app controls.
